### Fantasyland

#### New area themed to Disney's *Beauty and the Beast*

This area stretches from the village where Belle lives to the forest where the Beast's castle is secluded. At the entrance to the village is the home of Belle's father: **Maurice's Cottage** (Disney FASTPASS® machines are located here). Inspired by the film, a fountain dedicated to Gaston can be found at the center of the village. **La Taverne de Gaston** restaurant and **Village Shoppes**, including one themed to the bookstore that Belle frequents, line the street. With music from the film playing, guests will feel as though they have stepped right into Belle's world. Leaving the village behind, guests enter the forest where **Beauty and the Beast Castle** looms. Inside the castle, guests can experience **Enchanted Tale of Beauty and the Beast** attraction.

## Attraction

### Enchanted Tale of Beauty and the Beast

Rising to a height of nearly 30 meters, **Beauty and the Beast Castle** houses the major attraction, **Enchanted Tale of Beauty and the Beast**. Guests board magical cups that “dance” in rhythm to the animated film’s well-known music as they take guests through scenes depicting the story of Belle and the Beast.

Guests step into the Beast’s castle located deep in the forest to experience the “enchanted tale.” In the first scene, the beautiful Belle encounters a prince who has been transformed into a beast by a powerful enchantress.

Aboard enchanted cups that move and turn as if they are alive, guests travel through various scenes to experience the world of the film. There’s the banquet where they “dance” together with the dishes and cutlery to Lumiere’s singing; the snow-covered garden where they glide over the ice as Belle and the Beast find themselves growing closer. The castle is filled with magical moments and surprises, so guests will discover something new each time they visit.

Will Belle and the Beast find love and thus break the spell before the last petal of the enchanted rose falls? Guests can look forward to the magical romance of Enchanted Tale of Beauty and the Beast.

concept image

This original Tokyo Disneyland show features Mickey Mouse and his Pals in a spectacular performance of music and dance that makes full use of the theater's large-scale stage sets and effects.

One day, Mickey Mouse, Minnie Mouse, Donald Duck and Goofy find a giant music box deep in the forest. They turn the music box's large golden key and doors suddenly open. Accompanied by the songs associated with them, various Disney Characters appear including Snow White, Pinocchio, Woody and his friends from the Disney and Pixar *Toy Story* film series, and more.

Mickey and his Pals are delighted with the surprising development and are excited to hear the next song. But when the last door opens, no one appears and no music is heard. Worried, Mickey and his Pals set off on a journey to find the missing song.

Along the way they encounter characters from many Disney films. Lumiere from *Beauty and the Beast* welcomes them with a colorful banquet. King Louie and others from *The Jungle Book* together with Timon from *The Lion King* put on a powerful jungle-style performance. In a lovely world of starry skies and mirrors, the Disney Princesses dance a graceful waltz. And then Ursula from *The Little Mermaid* and Captain Hook from *Peter Pan* appear in a thrilling scene. Will the journey of Mickey and his Pals lead them to the lost song?

Guests of all ages will enjoy this dynamic entertainment offering with many of their favorite Disney Characters, unforgettable music, and spectacular scenes featuring a blend of stage

effects, image projections and live performances.
