**Tokyo Disneyland and Tokyo DisneySea Parks
Attendance Figures for Fiscal Year 2010**

URAYASU, CHIBA—**Tokyo Disney Resort®** announced today that the total combined attendance at **Tokyo Disneyland® Park** and **Tokyo DisneySea® Park** during the fiscal year 2010 (April 1, 2010 to March 31, 2011) amounted to 25,366,000 persons (98.2% or minus 452,000 persons of the attendance figure for the previous year).

Attendance for fiscal year 2010 rose for the first three quarters and into the fourth quarter. The positive growth can be attributed to several factors including the success of the many special events held at both of the Parks, the opening of the new attraction **Mickey's PhilharMagic** at Tokyo Disneyland in January 2011, and the favorable weather conditions throughout the year.

However, due to the Tohoku Pacific Earthquake, operation of the two Parks had to be suspended, thereby resulting in an annual attendance figure that fell short of both the forecast for the year and the attendance results of the previous year.

Current Conditions of Tokyo Disneyland and Tokyo DisneySea

Upon inspection of the buildings and facilities at Tokyo Disneyland and Tokyo DisneySea following the earthquake, the safety of both Parks has been confirmed. Accordingly, they are ready for opening and the aim is to reopen as soon as possible. The reopening of the Parks will be notified as soon as a date has been determined.

Please see the following website for current conditions of the buildings and facilities at Tokyo Disneyland and Tokyo DisneySea (as of March 28).
