New Restaurant at Tokyo Disneyland
Plazma Ray's Diner to Open in Spring 2017

URAYASU, CHIBA— **Tokyo Disney Resort®** announced that **Plazma Ray's Diner** will open in Tomorrowland at **Tokyo Disneyland®** Park in spring 2017. This new restaurant features “out-of-this-world” rice bowls and desserts which can be enjoyed in a galactic setting with geometric designs.

Themed to a restaurant chain with locations throughout the universe, **Plazma Ray's Diner** will offer four different types of rice bowls. With colorful toppings of vegetables and chicken, star-shaped fried foods, meat patties and more, the rice bowls are inspired by a star-filled sky. Rockets and outer space serve as the inspiration for the desserts created specifically for this restaurant. A satisfying dining experience awaits hungry Park Guests at **Plazma Ray's Diner**.

In preparation for the opening of this new restaurant, Plaza Restaurant will close permanently on January 4, 2017. The exact opening date for **Plazma Ray's Diner** will be announced as soon as it is decided.
