## Message from the CEO

---

Toshio Kagami  
Representative Director, Chairman and CEO

Two years has now passed since we had to suspend Theme Park operations over 123 days. In 2020, the 60th anniversary of the Company's foundation, we faced an unprecedented crisis. However, as we used this time to reflect on the reason for our company's existence in society, it was also a tremendous opportunity for us.

"Aiming to create spaces where people can sing a never-ending hymn to humanity." This has been our approach to business, shared among all employees when our company laid out the ground plan for Maihama. We seek to create a true culture of interpersonal understanding, where all kinds of diverse people of all nationalities and ages can delight, laugh, and be moved together, to the sound of their uplifted voices. We have recognized that continuing to create and provide this wonderful world is our mission.

Each Cast Member continues to possess hospitality that can bring happiness to our Guests, and to be an entertainer. This is a vital element in leading Park operations successfully. In addition, we have always valued direct communication between people.

However, with the spread of the novel coronavirus (COVID-19), we found ourselves having to completely rethink this approach from the ground up. Through trial-and-error, we have been exploring how we need to be in order to carry out our mission and inspire as many Guests as possible to want to return.

As we struggled our way forward through a long tunnel, step by step, we heard from many stakeholders about their hopes, and also received words of encouragement. As we respond to these feedback, we have reaffirmed that our mission has not changed—in the past, the present, and the future—and felt strongly that our business succeeds on a basis of the peaceful society and it enhances and increases in it.

Today, and in the future, we aim to be a company that is "Striving to Continuously Offer People Wonderful Dreams, Moving Experiences, Happiness and Contentment," for everyone, and for society. This has been an opportunity for all of our employees to take these words to heart once again and to make a fresh start.

## Towards 2030

Our Group has been moving forward with discussions about its vision for the future for some time. However, the situation has been changed by the pandemic, giving us an opportunity to rethink the environment of our core Theme Parks business and the value we provide through that business. Based on this, through internal discussions, mainly among the management team, we have come up with the following vision. “Our goal for 2030: Bringing more ‘Happiness’ to you and the community.”

After repeatedly asking ourselves how we will cope with the changes that may occur going forward, we realized that the answer is not to resist change, but to work daily to develop the resilience to accept it. Going forward, management will need more than ever to continue moving forward, seeking an optimal balance between discerning areas that must not be changed, and being willing to completely replace existing concepts that need to be changed without fear of confusion or failure.

In our many discussions, we have asked whether opening the door to the next stage in our journey, and becoming a company that can continue to live up to the expectations of many requires that we keep making repeated changes and reforms, and become a company that can contribute to enhancing the sustainability not only of the Group’s businesses, but of society in general.

The result of these discussions is a decision to pivot towards sustainability management, aiming to achieve long-term sustainable growth as well as contribute to a sustainable society so that we can continue to grow our profits as a company. Despite the currently adverse business environment, we will reflect on the many difficulties we have overcome together with our predecessors, and continue our great effort to create even further new value.

As we head towards realizing our vision for 2030, I invite all our stakeholders to expect great things from our Group, which has created completely new experience value of Theme Parks starting from scratch for the Japanese market.

Kenji Yoshida  
Representative Director, President and COO

### Looking back on FY2021

Over the past year, I have been working to achieve “management that gets the best out of people” in order to trigger change. The important thing to focus on in driving this change is people. By breaking down employees’ preconceptions that they can’t change, and creating an environment that encourages their transformative ideas and actions, we will develop people through work, and create transformation through people. The key points of this management approach will remain unchanged going forward.

In FY2021, as we experienced an unprecedented global pandemic, we were forced to make a difficult change of direction in our Theme Park operations. With frequent changes in the restrictions on Theme Park attendance due to state of emergency declarations, quasi state of emergency measures and various restrictions in place, employees worked creatively to conduct safe and secure Theme Park operations, while giving their full efforts to provide the greatest possible happiness to our Guests.

Despite the challenging business environment, each of our employees worked hard to come up with ideas for transformation and implement them swiftly. I believe it was their efforts that have ultimately led to management that brings about change.

## Taking on the Challenge of More Sustainable Management

In April 2022, our Group examined the direction for its long-term growth and the purpose for its existence and established its goal for 2030, “Bringing more ‘Happiness’ to you and the community,” To ensure that the Group can continue creating value over the long term, it must constantly circulate and strengthen the six capitals that make up its management resources. We identified eight areas of materiality that correspond to mitigation of risk and growth of opportunities from an ESG perspective, and set 2026 the milestone year for our Key Goal Indicators (KGIs) for 2030 and SDGs contribution targets, and set KPIs in our 2024 Medium-Term Plan. These eight ESG materiality areas should be tackled as part of our business activities, and among them, “employee happiness” and “happiness of children” are issues that are unique to our Group.

We regard “employee happiness” as coming from a sense of fulfillment from the job itself, as well as a high level of job satisfaction, including establishing a comfortable and supportive workplace environment and internal systems, and relationships with colleagues. Our Group has always valued its employees, who support our Guest services, as they are the core of our business.

Currently, we conduct engagement surveys on some of our employees, but going forward we will continue to conduct surveys on job satisfaction for all employees, aiming for an average rate of positive responses of 80% or higher. This is a high target, but by increasing the number of employees who are self-motivated to take on challenges and demonstrate their strengths, and cultivating an organization that recognizes their efforts, we will increase both productivity and retention rates, which will contribute to increasing corporate value in the future.

Furthermore, management has stated its commitment to “Create a rewarding workplace environment for all,” and we will also examine ways to further improve our initiatives related to job satisfaction, such as revising our human resources systems and education measures to create a sense of fulfillment.

Children are very important to us at TDR. A recent survey shows that a visit to our Theme Parks has an enduring positive impact on children even after the visit, such as cultivating their sensitivity. To nurture the dreams and hearts of children who are our future, we will implement initiatives for “Happiness of children” through our business activities and community programs.

\* Survey of Theme Park behavior for visitors in September to October 2021

The 2024 Medium-Term Plan announced in April 2022 along with our goals for 2030 was formulated by back-casting from our goals for 2030.

We have designated the next three years as the time to take on new challenges for the future while getting our financial performance back on track, and set out the goals of “enhancing Guests’ experience value” and “restoring financial performance.” By lowering the daily limit on Theme Park attendance to below the pre-pandemic level, we aim to implement new measures such as reducing waiting times to a certain level all year round and offering options that meet the diversifying needs of Guests, thereby increasing Guests’ experience value and our own earnings. Needless to say, we will also continue working on our large-scale development and new contents to make our Resort more appealing. During the period covered by the 2024 Medium-Term Plan, Fantasy Springs, our new theme port, and a Theme Park hotel will open. They are “stars of hope” guiding the OLC Group to a brighter future, and with this biggest expansion since the opening of the Tokyo DisneySea, we are convinced that the Tokyo Disney Resort will exceed your expectations with its enchanting appeal.

Our unchanging corporate mission is to provide “wonderful dreams, moving experiences, happiness, and contentment” driven by “original and imaginative ideas.” In addition, based on the belief that the “Theme Park will never be completed,” there is no end or limits to our challenges. No matter how society and values change, the entire Company is determined to take on the challenges of the future, so that we can continue to provide “wonderful dreams, moving experiences, happiness and contentment” and bring many smiles to people for the next 50 to 100 years. Please look forward to the growth and evolution of the Company in the future.

## Our Approach to Sustainability

---

Oriental Land Co., Ltd. was established in 1960 with the purpose of contributing to the cultural life of the nation and the welfare of Japanese citizens. Following this, efforts to attract the American Disneyland to Japan began, and in 1979, a license agreement was signed with Walt Disney Productions (as it was known at that time). Tokyo Disneyland then opened in 1983.

We have continued to spread happiness that cannot be found anywhere else throughout the community.

During this drastically changing world caused by climate change, the declining birthrate and aging population, etc., the OLC Group will work to continue providing values to society and to evolve as a company for the next 50 to 100 years. To this end, we have decided to aim for sustainable management that incorporates responses to global environmental problems and social issues into our operations and business strategy.

The OLC Group defines sustainable management as the realization of both “contribution to a sustainable society” and “maintaining of long-term corporate growth.” In particular, the commitment includes evolving our existing business operations to offer options that more closely cater to Guest needs, improving our capacity to address fluctuations in demand to enhance the added value of the Tokyo Disney Resort. In addition, it also includes taking on the challenge of establishing new businesses that help us resolve issues and enhance values in our core business, as well as provide us with growth opportunities. Furthermore, we intend to contribute to social issues, such as working towards the Sustainable Development Goals (SDGs).

To sustainably create “Happiness,” which is a value offered by our Group, to contribute to achieving a sustainable society and long-term sustainable growth, we have formulated “Our Goal for 2030” and our medium- and long-term initiative policy for fulfilling the Goal.

# Our Goal for 2030 and Medium- and Long-term Initiative Policy

- Our Goal for 2030: Bringing more “Happiness” to you and the community  
We will aim to be a corporation that continues to create “Happiness,” not only for the Group’s stakeholders but also for the broader community.

- Continue to create “Happiness” not only inside the Resort including the Theme Parks, but also for many people in the broader community.
- Continue to be a corporation desired by society by fulfilling our role in the efforts made toward achieving a sustainable society.
- Continue to be a corporation in which employees can truly take pride.

- Medium- and long-term initiative policy  
To achieve Our Goal for 2030, the OLC Group intends to promote sustainable business development and measures for eight environmental, social, and governance (ESG) materiality, through which it will contribute to the achievement of the Sustainable Development Goals (SDGs).

## 1. Sustainable business development

### ① Existing businesses

The OLC Group will seek higher added value for Tokyo Disney Resort by addressing diversifying Guest needs and fluctuations in demand.

### ② New businesses

The OLC Group will engage in businesses that help resolve issues faced in existing businesses and increase their value, possibly obtaining new earning opportunities.

## 2. ESG materiality

The OLC Group has selected eight ESG materiality for capturing growth opportunities and eliminating risks with the aim of contributing to achieving a sustainable society and long-term sustainable growth. “Employee happiness” and “Happiness of children” will be promoted as areas of materiality unique to the OLC Group.

## Promotion Structure of Sustainability

In June 2021, we established the Sustainability Promotion Department, Corporate Strategy Planning Division with the aim of steadily pushing forward our sustainability management and thereby contributing to a sustainable society while also achieving long-term sustainable growth. Under the responsibility of the Supervisor of the Corporate Strategy Planning Division (Executive Director and Executive Vice President Officer), the Sustainability Promotion Department takes the role of planning policies and strategies pertaining to our Group's sustainability and environmental, social and governance (ESG) matters; formulating key performance indicators (KPIs) in light of the eight priority areas identified as having materiality and the directions of measures to address the issues, and incorporating them into our management plan; and coordinating Group-wide efforts in conjunction with relevant organizations.

Furthermore, the Department brings up matters concerning sustainability and ESG for discussion at the Executive Committee as necessary, in view of their level of importance.

In July 2021, we established the Corporate Conduct Committee to create a structure where policies for each initiative in the eight areas of materiality can be formulated by leveraging the specialized knowledge and insight of each organization across our Group and the progress of the initiatives can be ensured and managed. As an advisory body to the Executive Committee, the committee discusses diversity and inclusion, supply chain management, and stakeholder engagement across our Group, with the Sustainability Promotion Department, the secretariat, proposing matters for discussion at the Executive Committee and Board of Directors if necessary.

In addition, in August 2021, we also put in place the Sustainability Promotion Committee chaired by the Representative Director, Chief Operating Officer and President. The committee aims at creating a setting for lively discussions across the entire Group about the order of priority and resource allocation pertaining to initiatives examined by the Sustainability Promotion Department and different committees, before proposing at the Board of Directors and the Executive Committee.

## Sustainability Education

As part of our efforts to educate our employees on sustainability, we have conducted educational activities such as publishing web magazines that summarize CSR case studies in an easy-to-read, holding internal exhibitions that provide information on CSR based on various themes, and disseminating information about our social contribution activities.

Since April 2021, we have been conducting activities to raise employees' awareness of a more sustainable management, the eight key issues and related direction of measures through the distribution of the President's message and via electronic bulletin boards.

Furthermore, as part of our environmental education, we also hold in-house fairs, stream awareness videos in our employee cafeteria, and provide e-learning programs.

## Environmental Data

### Actions and Performances

#### Environmental Impact Status of Tokyo Disney Resort

##### Tokyo Disney Resort

The chart below gives a broad indication of the environmental impact of the business operations of Tokyo Disney Resort\* in FY 2021. Our environmental efforts touch on a variety of areas including energy management, water processing, waste management and recycling activities. We give due consideration to a range of environmental factors to reduce the burden on the global environment produced by our business activities.

Inputs (i.e., external factors that contribute to the environmental impact of our operations) include energy (electricity, city gas, fuel, etc.), water (clean water), various goods, equipment and food.

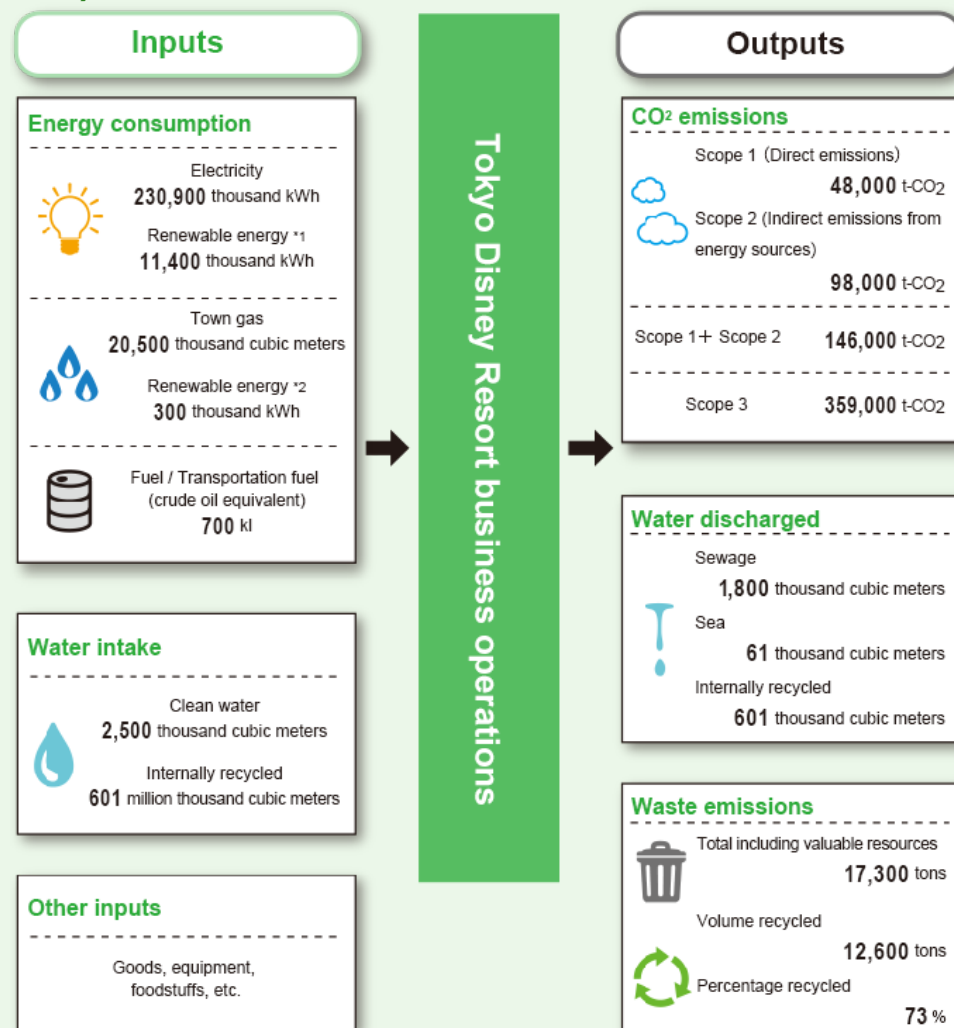

Outputs (i.e., emissions resulting from our business activities) include carbon dioxide, wastewater released into the sewage system, and waste (including valuable resources).

\*Tokyo Disneyland, Tokyo DisneySea, Disney Ambassador Hotel, Tokyo DisneySea Hotel MiraCosta, Tokyo Disneyland Hotel, Tokyo Disney Celebration Hotel, Tokyo Disney Resort Toy Story hotel, Ikspiari, Bon Voyage, Disney Resort Line, and Maihama Amphitheater

#### Environmental data coverage rate

The environmental impact mass balance, changes in CO<sub>2</sub> emissions, and yearly data cover approximately 98% of the OLC Group' direct business areas (the Theme Park business, Hotel business, and other business segments) in terms of net sales composition.

#### Mass Balance on Tokyo Disney Resort Environmental Impacts (FY 2021)

※1in-house power generation by solar panels(all consumed by in-house operations)、procurement of electricity with non-FIT non-fossil certificate

※2 Procurement of carbon neutral town gas

## CO<sub>2</sub> emissions (Scope1 + Scope2)

\* CO<sub>2</sub> emissions in FY2020 decreased due to the impact of the temporary closure and shortened operating hours of our Theme Parks.

## Scope 3 CO<sub>2</sub> Emissions(FY2021)

Category	Emissions (t-CO <sub>2</sub> )	Ratio (%)	Calculation method
1.Purchased goods and services	146,134	40.8	Calculated by aggregating the total value of OLC's major procured products (by item) and the total amount of water consumed by our Group, and multiplying them by the emissions unit value*1,2
2.Capital goods	160,222	44.7	Calculated by multiplying the value of our Group's fixed assets by the emissions unit value*1
3.Fuel- and energy-related activities not included in Scope 1 or 2	37,278	10.4	Calculated by multiplying the amount of energy consumed by our Group by the emissions unit value*1,3 for each energy type
4.Upstream transportation and distribution	952	0.3	Calculated by multiplying the value of OLC's transportation and the amount of fuel consumed by contractors by the emissions unit value*1
5.Waste generated in operations	5,836	1.6	Calculated by classifying the waste generated in the business activities at Tokyo Disney Resort by disposal method, and multiplying the weight of the disposed waste by the emissions unit value*1,3
6.Business travel	23	0.0	Calculated by multiplying the total number of days of overseas and domestic business travel by OLC's full-time employees and contract workers by the emissions unit value*1
7.Employee commuting	1,076	0.3	Calculated by multiplying the total number of commuting days of OLC's full-time employees and contract workers by the emissions unit value*1
8.Upstream leased assets	-	-	Not applicable for calculation (All energy consumed by assets leased under upstream lease agreements are included in Scope 1 or 2.)
9.Downstream transportation and distribution	-	-	Not applicable for calculation (Calculation is too difficult as it is impractical to collect data required for calculating emissions.)
10.Processing of sold products	-	-	Not applicable (Processing of sold products is not relevant in our business activity.)
11.Use of sold products	-	-	Not applicable for calculation (The amount of GHG emissions in the use of sold products is considered to be low in our business activity.)
12.End-of-life treatment of sold products	7,035	2.0	Calculated by multiplying the sales volume of OLC's major products sold by the emissions unit value*1,3 to conduct weight conversion, and multiplying the result by the emissions unit value*1,3 for each product

## Policies and Regulations

The OLC Group has established our Environmental Policy that sets forth guidelines for action and our philosophy governing our Group's environmental activities. This policy was approved by the Board of Directors. Our group will clarify the roles and responsibilities for implementation of environmental management policy and commit to continuously improve our environmental performance.

### OLC Group Environmental Policy (Revised May 2022)

#### Environmental Philosophy

##### Bringing "Happiness" to future generations

We seek to work in harmony with the environment and society and pursue the sustainability of both through all our businesses to continue to offer wonderful dreams, moving experiences, delight and contentment well into the future and pass down a healthier Earth and business to the next generation.

#### The OLC Group Environmental Action Policy

1. Our Group will make every effort to address global warming, conserve energy, reduce and recycle waste, use water resources efficiently, consider biodiversity, prevent pollution, and engage in green purchasing in all aspects of its business operations.  
\*We will also collaborate with the supply chain and various stakeholders in an effort to resolve environmental issues.
2. Our Group will comply with all statutory regulations and internal standards related to the environment.
3. Our Group will establish, implement and review environmental objectives and targets on a regular basis.
4. Our Group will offer education and training to all our employees so that they understand and can act independently in line with our Environmental Policy.
5. Our Group will appropriately disclose information to stakeholders and strive to engage in good communication with them.

### ESG Materiality for 2030

Regarding environmental activities, we have set our ESG materiality as "Measures to address climate change and natural disasters" and "Recycling-oriented society"

[> ESG Materiality](#)

### Long-term Targets and Targets for 2030 in Greenhouse Gas Emissions Reduction

Our Group has set the following targets for "Measures to address climate change and natural disasters," our ESG materiality.

Key Goal Indicator (KGI)	Quantitative target / Qualitative target	Target year(FY)
Greenhouse gas emissions*	51% reduction (vs. FY 2013 levels)	2030
	Net zero	2050

\*Greenhouse gas emissions include Scope1 and Scope2

## Targets for 2030 in Waste Management

Our Group has been taking actions to reduce waste and has set the following targets to contribute to “Recycling-oriented society,” our ESG materiality.

Key Goal Indicator (KGI)	Quantitative target / Qualitative target	Indicator	Quantitative target / Qualitative target	Target year (FY)
Waste reduction target [weight]	10% reduction (vs. FY 2016 levels)	Food loss reduction target	50% reduction (vs. FY 2019 levels)	2030
		Single use plastics reduction target	25% reduction (vs. FY 2018 levels)	
Percentage recycled [actual result]	80%	Resource saving target on products and services	7.8% reduction (vs. FY 2018 levels)	

## Medium-term Target for Reducing Per-unit CO<sub>2</sub> Emissions by FY 2020

We had been working to reduce per-unit\*1 CO<sub>2</sub> emissions, aiming to achieve the FY 2020 medium-term target of reducing emissions by 1% each year from the FY 2016 level by FY 2020, with the target for FY 2020 being 0.158 t-CO<sub>2</sub>/m<sup>2</sup>.

## Changes in Per-unit CO<sub>2</sub> Emissions

\*1 Amount of CO<sub>2</sub> emissions per floor-area of facilities pertaining to Tokyo Disney Resort business (CO<sub>2</sub> emissions / Gross floor area of buildings)

\*2 Decreased due to the impact of the temporary closure and shortened operating hours of our Theme Parks (FY2020, FY2021).

## Medium-term Target in Waste Management by FY 2020

We had been working to reduce waste, aiming to achieve the FY 2020 medium-term target of reducing the amount of daily combustible waste by 3% from the FY 2015 level to 110 g per Guest by FY 2020.

## Changes in Amount of Daily Combustible Waste per Guest

\* Increased because of the discontinued sorting work that involves opening garbage bags for the safety of employees in charge of waste collection/sorting due to the spread of the infectious disease as well as the growing quantity of disinfectant and cleaning materials used (FY2020, FY2021).

## Information Disclosure based on TCFD Framework

Our Group endeavors to identify the diverse risks and opportunities stemming from environmental issues. Advancing climate change is expected to exacerbate natural disasters, including raising temperatures and sea levels, and causing serious typhoons and floods. Such events may affect the business of our Group in different ways. Meanwhile, if we can address these issues appropriately, we believe that we can strengthen our competitiveness and gain new business opportunities. Based on this belief, we have categorized the risks and opportunities related to climate change. Having endorsed the Task Force on Climate-Related Financial Disclosures (TCFD) in April 2022, our Group proceeds with the disclosure of information on the risks and opportunities related to climate change and their analyses.

Reference scenarios

Physical risks : RCP1.9, RCP2.6, RCP8.5

Transition risks : IEA B2DS, IEA 2DS, IEA SDS, IEA STEPS (previously IEA NPS)

## Reducing Environmental Impact across Supply Chain

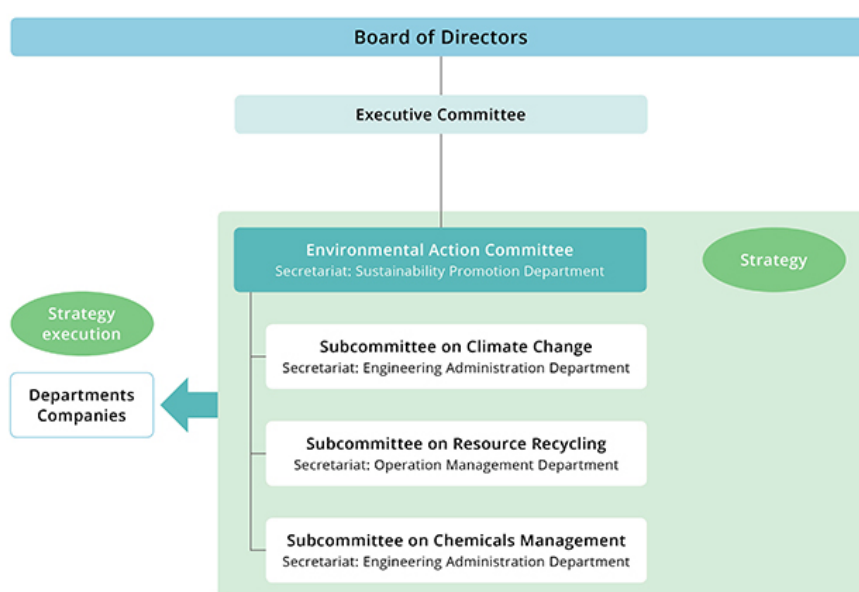

Our Group established the “[OLC Group Procurement Policy](#)” that includes environmental issues to be considered throughout our entire supply chain in May 2022. Also, our Group has the “[OLC Group Vendors Code of Conduct](#)” in place for our suppliers. To encourage our suppliers to advance their measures for environmental protection, the Code of Conduct prescribes our efforts to reduce all kinds of environmental impact, as well as to comply with laws, regulations, and other standards, for the purpose of preventing global warming and environmental contamination as well as giving consideration to biodiversity.

Furthermore, as part of our efforts aimed at reducing impact to ecosystems in the course of procurement, we have in place the [Guidelines on the Procurement of Paper](#) and notify its content to our major suppliers. The guidelines require that illegal or excessive deforestation be avoided and recommend using paper made 100% of recycled paper in the office. Also, we annually investigate the status of provision of the guideline to our major suppliers.

## Management Structures

### The OLC Group Environmental Management Structure

Our Group has a committee in place to promote environmental initiatives

### Structures to Promote Environmental Action

Recognizing environmental issues including climate change as an important managerial challenge to be addressed, our Board of Directors resolved to set “Measures to address climate change and natural disasters” and “Recycling-oriented society” as our ESG materiality, and monitor the progress made in our related plans.

Our Group has established an Environmental Action Committee chaired by the Supervisor of the Corporate Strategy Planning Division (Executive Director and Executive Vice President Officer). The committee is responsible for planning and setting targets for the Company’s environmental activities including against climate change and is comprised of three subcommittees\*. These subcommittees conduct fact-finding surveys, devise strategies for addressing environmental issues, and implement initiatives to reduce environmental impact.

Since FY 2010, the Chairperson of the Environmental Action Committee has been appointed to supervise our energy management pursuant to the Amended Act on the Rational Use of Energy with the goal of systematically performing the proactive conservation of energy. Through the Environmental Action Committee, targets and plans regarding environment actions are reported to the Board of Directors annually as well as when significant environmental issues come up.

Approved by the Board of Directors, “Climate change and natural disasters” and “Circular economy” will be our focus area on environmental actions until 2030. We will establish plans of mitigations and adoptions to the climate change, while incorporating it to the business strategy.

\*Subcommittee on Climate Change, Subcommittee on Chemicals Management, and Subcommittee on Resource Recycling (as of October 2022).

## Internal Environmental Audits

Since FY 2015, our Group has been conducting internal environmental audit with specific topics each year. In FY 2021, we conducted a follow-up investigation into topics checked in our past environmental audits. Specifically, we checked the progress regarding the topics that have most frequently been pointed out in the audits, which were: “Laws concerning waste treatment and cleaning,” “Act on Recycling of Specified Kinds of Home Appliances,” and “Act on Promotion of Recycling of Small Waste Electrical and Electronic Equipment.”

## Actions and Performances

---

### Compliance with Environmental Laws and Regulations

Our Group ensures that information on environmental laws and regulations is shared across our Group by using a checklist and keeps track of legal revisions with support from relevant external service providers.

In FY 2021, no serious accidents concerning the environment occurred nor were we required to pay any environmental penalties.

### Environmental Education for Employees

Our Group has been engaging in a variety of efforts to raise employee awareness of the importance of environmental conservation, including producing and showing a video to introduce our environmental activities, offering e-learning programs, and publishing an environmental series in our in-house newsletter. We also post a variety of educational materials on environmental issues on our internal bulletin boards.

## Policies and Regulations

### Being Aware of Climate Change

Corporations are expected to fulfill their social responsibility to address climate change resulting from global warming. Moreover, undertaking environmentally friendly business activities will help make corporations themselves more sustainable.

Our Theme Parks, which are visited by many Guests every day, can be described as one large “city.” To ensure that our Guests can spend a comfortable time with peace of mind in this city and to preserve and pass on the precious global environment to future generations, while also continuing to deliver happiness, the OLC Group must shoulder the responsibility of implementing proactive measures against climate change to reduce its risks in a sincere manner.

### The OLC Group’s Approach

Having set “Measures for climate change and natural disasters” as our ESG materiality for the period leading up to 2030, we will implement mitigation measures, which entail curbing the advance of global warming by reducing the emission of greenhouse gases (GHGs), and adaptation measures, which entail minimizing the impact on Guests of water shortages, temperature increases, more frequent typhoons, and other changes to the environment that are expected to arise due to global warming.

## Participation in External Initiative

Our Group is a member of Tokyo Zero-emission Innovation Bay. The organization was established to build an innovative area of zero-emission technology around Tokyo Bay with various energy suppliers and users around it. The initiative aims to elevate the area into the biggest research/development and PR points against climate change with their pursuit of renewable energy technology or the electric network. 134 organizations and institutions participate in the initiative. We will take our responsibility towards climate change along with their philosophy.

## Energy Management System

Our proprietary energy management system (EMS) visualizes electricity consumption within our two Theme Parks and back office.

The EMS collects and analyzes data on energy consumption using IT through sensors attached to all facilities. This system has enabled us to identify inconsistent or wasteful electricity use by monitoring the operation hours and temperature settings of air conditioners, and the lighting time and illumination level settings of lighting equipment, among others, and to

implement measures to make improvements based on collaborations with relevant organizations, contributing to the establishment of a Plan-Do-Check-Act (PDCA) cycle for CO<sub>2</sub> emissions reduction.

In recognition of our organizational EMS-based energy-saving initiative, we received the 2018 Minister of the Environment Award for Global Warming Prevention Activity in the category for practical environmental measures and proliferation in December 2018.

## Actions and Performances

### FY 2021 CO<sub>2</sub> Emissions

In FY 2021, CO<sub>2</sub> emissions by our Group amounted to 156,000 t-CO<sub>2</sub>.

Unit: t-CO<sub>2</sub>

FY 2018	FY 2019	FY 2020	FY 2021
198,000	186,000	144,000	156,000

\* Decreased in FY 2020 due to the impact of the temporary closure and shortened operating hours of our Theme Parks.

For the amount of CO<sub>2</sub> emitted at the Tokyo Disney Resort, please refer to the [Environmental Data](#).

## Mitigating Climate Change

Approximately 70% of our Group's current CO<sub>2</sub> emissions result from electricity use. Our Group has introduced a combination of different measures related to the mitigation of climate change in an effort to reduce CO<sub>2</sub> emissions on an ongoing basis.

We will continue exploring mitigation measures to slow the progress of global warming.

Initiative example	Outline
Installation of power generators	<ul style="list-style-type: none"> <li>Maximum usable electricity: approximately 15,000kw</li> <li>Aims to help cut peak-demand grid energy use in summer</li> </ul>

## Environmentally Friendly Transport

Our Group is endeavoring to reduce the environmental impact of transportation.

Initiative example	Outline
Emissions Reductions for Commercial Vehicles and Low-Emission Vehicles	<ul style="list-style-type: none"><li>• Promoting the use of light, hybrid and electricity-powered vehicles to reduce CO<sub>2</sub>, nitrogen oxide (NO<sub>x</sub>) and particulate matter (PM) emissions from company vehicles</li><li>• Replaced all company buses operating on our office grounds with hybrid vehicles</li></ul>
Formulation of the OLC Group Eco-driving Rules	<ul style="list-style-type: none"><li>• Formulated based on the eco-driving rules promoted by the Japanese government</li><li>• Requesting employees and suppliers to comply with our Group's Rules</li></ul>

## Adapting to Climate Change

### Tokyo Disney Resort

As a form of adaptation, our Group continues to work on enhancing resilience, for example, by taking measures against thunderstorms, typhoons, and other natural disasters, and addressing rising temperatures in order to prevent heatstroke both indoors and outdoors.

### Increasing Recycling Rates

With many Guests visiting our Theme Parks every day, the Tokyo Disney Resort is much like a big city.

The OLC Group promotes waste reduction and recycling programs and is making aggressive efforts to reduce our impact on the environment.

### Targets for 2030 in Waste Management

Our Group has been taking actions to reduce waste and has set the following targets in order to contribute to “Recycling-oriented society,” our ESG materiality. We will also continue to work on saving resources by reducing the amount of waste rigorously enforcing the proper separation of different types of waste, and promoting recycling.

		Single use plastics reduction target	25% reduction (vs. FY 2018 levels)	
Percentage recycled [actual result]	80%	Resource saving target on products and services	7.8% reduction (vs. FY 2018 levels)	

## Medium-term Target in Waste Management by FY 2020

We promoted initiatives to reduce daily combustible waste by 3% from the FY 2015 level to 110 g per Guest by FY 2020, which was the FY 2020 medium-term target.

### Changes in amount of daily combustible waste per Guest

\* Increased because of the discontinued sorting work that involves opening garbage bags for the safety of employees in charge of waste collection/sorting due to the spread of the infectious disease as well as the growing quantity of disinfectant and cleaning materials used (FY2020, FY2021).

## Actions and Performances

### Recycling Rates

In FY 2002, when Tokyo DisneySea was first open for the entire year, the recycling rate fell short of 50 percent; by contrast, the rate across the entire Tokyo Disney Resort reached 70 percent level in these several years as a result of the initiatives above. We recycle virtually all of the kitchen waste generated in our Theme Parks.

#### Rigorous Waste Sorting

The waste generated at the Tokyo Disney Resort is carefully sorted by Cast Members in accordance with detailed sorting criteria to recycle as much of our waste as possible.

We recycle a wide range of resources including cardboard boxes, kitchen waste, plants, edible oils, plastic bottles, plastic wrapping materials, other plastic waste, copy paper, newspapers and magazines, paper cups, paper packages, empty cans, empty bottles, metal and wooden chips. These are sent to specialized facilities for recycling. Also, all of the cardboard that are used for delivering the products and plastic bottles are recycled.

#### Representative examples of recycling

## Resource-saving and Recycling Initiatives

Initiative example	Outline
Donations to Food Banks	<p>Pre-gelatinized rice stored for disaster response along with other unexpired food and still-usable tableware are donated to food banks, mainly a certified NPO called Second Harvest Japan*.</p> <p>*The largest food bank in Japan. Based on the principle of "food for everyone," it conducts a wide range of support activities including providing support for disaster-stricken areas, welfare facilities, poor, and single mothers</p>
Reducing Food Loss	<p>Dishes made using non-standard tomatoes, bell peppers, and strawberries produced at the Hokuto and Teshikaga farms operated by the Group are served at restaurants in our Theme Parks as well as in the employee cafeteria.</p>
Developing Environmentally Friendly Products <b>Tokyo Disney Resort</b>	<p>In FY 2021, 14 products made with organic cotton or recycled materials went on sale at our Theme Parks. <a href="#">LET'S START WHERE WE CAN! (Japanese Only)</a> </p>
Recycling Loop <b>Tokyo Disney Resort</b>	<p>Selected restrooms across our businesses use toilet paper made from recycled paper. Some of these restrooms located at TDL and TDS use 30% recycled content from paper cups that have been recycled in the parks.</p>
Conserving toilet paper <b>Tokyo Disney Resort</b>	<p>Signage asking Guests to finish one roll of toilet paper before using the other is installed. (Tokyo Disneyland Hotel, Tokyo DisneySea Hotel MiraCosta, Disney Ambassador Hotel, Tokyo Disney Resort Toy Story Hotel)</p>
Reducing Use of Disposable Plastic	<p><a href="#">Click here for initiatives to reduce use of disposable plastic</a></p>

## Packaging giving consideration to the environment

Initiatives to reduce the amount of plastic packaging used	<p>We replaced plastic straws provided at restaurants at our Theme Parks and Disney hotels* with paper straws, and have also begun using paper cups instead of plastic cups to serve beer at our Theme Parks in line with our goal to reduce the use of plastic</p> <p>*Tokyo Disney Celebration Hotel, Disney Ambassador Hotel, Tokyo Disney Sea Hotel MiraCosta, Tokyo Disneyland Hotel, Tokyo Disney Resort Toy Story Hotel</p>
Switch to recyclable packaging	<p>By switching from plastic to paper beer cups at our Theme Parks, we aim to contribute to a reduction in the use of plastic as well as boost the ratio of recyclable paper cups being used</p> <p>Note that at some facilities, paper cups collected at our Theme Parks are being used as raw material for toilet paper (around 30%)</p>
Promoting the use of paper packaging made from recycled materials	<p>We enacted the Guidelines on Paper Procurement and are requesting that our suppliers basically use recycled paper in paper packaging</p>

#### Our Policy on Reducing Use of Disposable Plastic

The OLC Group is striving to reduce the use of disposable plastic in line with Our Environmental Policy.

With respect to items and restaurants, we will continue stepping up our measures to reduce the use of plastic by adopting renewable resources, among others. We are also continuing with our efforts to recycle waste plastic through rigorous sorting.

#### Targets for 2030 in Waste Management

Our Group has been taking actions to reduce waste and has set the following targets in order to contribute to “Recycling-oriented society,” our ESG materiality. We will also continue to work on saving resources by reducing the amount of waste rigorously enforcing the proper separation of different types of waste, and promoting recycling.

### | The OLC Group's Structures to Promote Waste Management

Recognizing environmental issues as an important managerial challenge to be addressed, our Board of Directors resolved to set “Measures to address climate change and natural disasters” and “Recycling-oriented society” as our ESG materiality, and monitor the progress made in our related plans. Our Group has established an Environmental Action Committee chaired by the Supervisor of the Corporate Strategy Planning Division (Executive Director and Executive Vice President Officer). The committee is responsible for planning and setting targets for the Company's environmental activities including climate change. Established under the Environmental Action Committee, the Subcommittee on Resource Recycling shares our waste management policy across our Group and strengthens collaboration. We strive to implement initiatives to reduce environmental impact by conducting fact-finding surveys, and devise strategies for reducing waste generated by our Group including single use plastics. Through the Environmental Action Committee, targets and plans regarding environment actions are reported to the Board of Directors annually.

## Actions and Performances

### | Initiatives to Reduce Use of Disposable Plastic

Initiative	Outline
Changed cushioning materials	Replaced plastic cushioning materials used for packaging with paper materials at all Tokyo Disney Resort merchandise facilities and restaurants. (Replacing on progress at restaurants.)
Initiatives at hotel rooms	Switched from individual shampoo and conditioner amenities to dispenser-type products at Disney hotels*, and discontinued disposable razors and shower caps as standard amenities.
Reduced the use of plastic cutlery	Phased out plastic cutlery used at our Theme Park restaurants and replaced them with cutlery designed to meet the reduction target set under the Plastic Resource Circulation Act. For some cutlery, plastic packages were eliminated or were replaced with lighter products.
Reduced the use of plastic straws	Replaced plastic straws provided at restaurants at our Theme Parks and Disney hotels* with paper or other non-plastic straws. Also introduced strawless lids at some Theme Park restaurants.
Replaced plastic beer cups with paper cups	Plastic cups used for serving beer were replaced with paper cups at our Theme Parks.
Charging for plastic shopping bags	Started charging for plastic shopping bags at stores selling merchandise and began selling Tokyo Disney Resort's original eco bags.

## Policies and Regulations

The OLC Group has been making consistent efforts to eliminate the wasting of resources by purifying wastewater and promoting the use of reclaimed water on a voluntary basis since opening its first Theme Park to the public.

By introducing the latest cutting-edge systems, we take environmentally friendly measures at all stages of the life cycles of attractions and facilities, from design to introduction, repair and replacement.

Our Group has established an Environmental Action Committee chaired by the Supervisor of the Corporate Strategy Planning Division (Executive Director and Executive Vice President Officer). The committee is responsible for planning and setting targets for the Company's environmental activities including climate change. Due to wide-ranging laws governing water supply and drainage\*, our Group Water Supply and Drainage Guidelines were established and our Group is developing a system to facilitate the appropriate management of water supply and drainage operations accordingly. Through the Environmental Action Committee, targets and plans regarding environment actions are reported to the Board of Directors annually. Recognizing environmental issues including developing a recycling-oriented society as an important managerial challenge to be addressed, our Board of Directors resolved to set "Measures to address climate change and natural disasters" and "Recycling-oriented society" as our ESG materiality, and monitor the progress made in our related plans.

\*Japan has various laws and regulations, including the Water Quality Pollution Control Act, the Water Supply Act, the Act on Maintenance of Sanitation in Buildings, and the Sewerage Service Act, which apply to our Group companies on the basis of location and business type.

## Actions and Performances

### | Water Purification and Recycling

#### Tokyo Disney Resort

The water used by our Group is collected, purified and recycled at a water treatment plant owned by our Group, in order to reduce water use.

Today, around 30 percent of the water we use (601 thousand m<sup>3</sup>) is recycled at our Group's water treatment plant and reused for toilet flushing at Tokyo Disneyland and Tokyo DisneySea.

## | Recycling of Water in Water Areas

### Tokyo Disney Resort

We have placed filtration devices in areas and attractions containing water at our Theme Parks. These devices enable us to maintain water quality by conducting thorough checks and effectively circulating all water. For example, the water contained in the vast water areas within Tokyo DisneySea is processed through a large-scale cycle filtration/purification system. Thanks to this system, we can efficiently maintain a consistent level of water by replenishing stocks on sunny days to make up for water lost to evaporation and we can also adjustments to deal with overflows on rainy days. Clean water used for fountains pours into the bodies of water located throughout Tokyo DisneySea, allowing us to use water effectively without wasting any of it.

### Adhering to the Spirit of the PRTR System

Under the Pollutant Release and Transfer Register (PRTR) system based on Japan's Act on Confirmation, etc. of Release Amounts of Specific Chemical Substances in the Environment and Promotion of Improvements to the Management Thereof, designated business operators are required to track the emission and transfer\* of PRTR substances and to submit detailed reports to the government. Although the reporting requirements of the PRTR system do not apply to our Group, we voluntarily investigate emissions and transfers of PRTR substances by our Group each year in line with the PRTR system in order to reduce our release of these chemical substances. Most of the PRTR substances used by our Group are contained in paints and cleaning products used at our Theme Parks.

The use of PRTR substances, including the paints used to recreate buildings from the early 20th century and in various other Theme Parks productions, as well as those used in routine maintenance work, is closely supervised in accordance with safety data sheets. The sheets provide information on chemical components, properties and handling guidelines, and we strive to control their release and transfer within appropriate levels.

Our Group will continue to reduce the use of these chemicals by replacing them with alternative substances and redesigning facilities into those that do not require any paint to be applied, and reduce the emissions and transfer of the chemical substances.

\*Operators are required to track what types of chemical substances are discharged into which environment, and what types of chemical substances are transferred off-premises.

### Target for Release/Transfer of PRTR Substances

For FY 2022, we aim to keep the release and transfer of PRTR substances below 5.5 t, the level recorded in FY 2021.

## Actions and Performances

### Efforts to Reduce Chemical Emissions

#### Tokyo Disney Resort

Our Group continues to conduct fact-finding surveys on the usage, discharge and transfer of PRTR substances annually and will search for and implement methods of reducing releases. We have thus far cut down on the use of toluene and xylene by switching to water-based paints and have substantially reduced the use of AE (poly (oxyethylene) alkyl ether) by discontinuing use of AE dishwashing detergent.

Furthermore, when redesigning structures and pavement materials at our Theme Parks to facilitate maintenance, we also strive to reduce the use of paint and construction materials containing chemical substances in consideration of the environment.

For example, in the waiting area for the Haunted Mansion, we applied no paint to the curbstone and changed the pavement materials to those containing no chemical substances.

Applied no paint to the curbstone and eliminated chemical substances from pavement materials

Paper Procurement in Consideration of Biodiversity

In June 2015, as part of our efforts aimed at limiting damage to ecosystems in the course of procurement, we set new guidelines on the procurement of paper, and notified its content to our major suppliers. These require that illegal or excessive deforestation is avoided and recommend using paper made 100% of recycled paper in the office. We also conduct annual investigations of major suppliers to check how well the Guidelines are being disseminated.

### | Greenery at our Theme Parks

#### Tokyo Disney Resort

We set aside more than around 18 hectares of land, or one-sixth of our total theme park area, for greenery. Around 1,340,000 plants comprising 2,000 species are grown, which is comparable to a botanical garden.

In our Tokyo Disney Resort blog on our [Tokyo Disney Resort official website](#)  (in Japanese only), we provide an overview of our plants as well as gardening advice under the theme of "flower and greenery walks," so that our guests can enjoy learning about diverse forms of vegetation.

## Code of Conduct - The Five Keys (Tokyo Disney Resort)

### Policies and Regulations

#### Code of Conduct - The Five Keys

##### Tokyo Disney Resort

We act with safety as our top priority.

Safety comes first in all actions we take to create happiness for Guests visiting our Theme Parks.

In order to achieve the goal of Tokyo Disney Resort Cast Members, "We Create Happiness," all TDR Cast Members make decisions and act based on the Five Keys, the code of conduct shared among all Disney Theme Parks.

The Five Keys—Safety, Courtesy, Inclusion, Show and Efficiency—serve as the basis on which all Cast Members make decisions to provide the greatest hospitality to Guests.

The Five Keys are also the most valued standard for Oriental Land Co., Ltd. in operating Tokyo Disneyland and Tokyo DisneySea under license from Disney Enterprises, Inc.

##### [ Safety ]

In order to create a safe and relaxing place, the safety of Guests and Cast comes before anything else.

##### [ Courtesy ]

Based on the belief that Guests should be treated like VIPs, we also aspire to offer friendly, genuine hospitality; not just being polite, but providing service from the standpoint of the Guests.

##### [ Inclusion ]

Welcoming and respecting different viewpoints and people. Placed at the heart of all the Keys, it is deeply connected to any of the other Four Keys.

##### [ Show ]

Cast Members are part of the show and should treat every day as opening day, approaching every task as part of a themed show, even when they are inspecting or cleaning the facilities.

##### [ Efficiency ]

Focusing on safety, courtesy and the show will, along with teamwork, help us achieve greater efficiency.

## Actions and Performances

### Safety

#### Tokyo Disney Resort

Cast Members place Safety as top priority. For example, one of the jobs of Custodial Cast Members is to mop up spilled drinks. They do this standing up rather than squatting, using their feet to mop up spilled liquids. This is to prevent accidents, since Guests caught up in the magic of the environment may not see the Cast Member if he/she were crouching down. Mopping up with feet may seem unmannerly, but this is intentional as they put Safety before Courtesy or Show.

Ensuring Guest safety is a priority in everyday tasks, and it guides the actions of all Cast Members.

A Cast Member remains standing when cleaning up for Guest safety.

### Policies and Regulations

#### Our Policy on Attraction Safety

##### Tokyo Disney Resort

A large number of Guests enjoy the attractions at Tokyo Disneyland and Tokyo DisneySea every day. In order to offer our Guests a consistently safe and enjoyable experience, the OLC Group has developed the Policy on Attraction Safety.

#### Policy on Attraction Safety

To allow us to create happiness and contentment by offering “wonderful dreams, moving experiences, delight and contentment” the OLC Group is dedicated to maintaining and enhancing the safety of our attractions and to achieving the highest standards of safety and quality.

1. Our Group shall comply with all statutory safety regulations and internal safety standards.
2. Our Group shall work to improve the safety of the facilities and procedures for the operation of attractions.
3. Our Group shall maintain operational safety at all times to continue to provide the ultimate show experience.
4. Our Group shall train all employees to actively incorporate our safety procedures into their work.

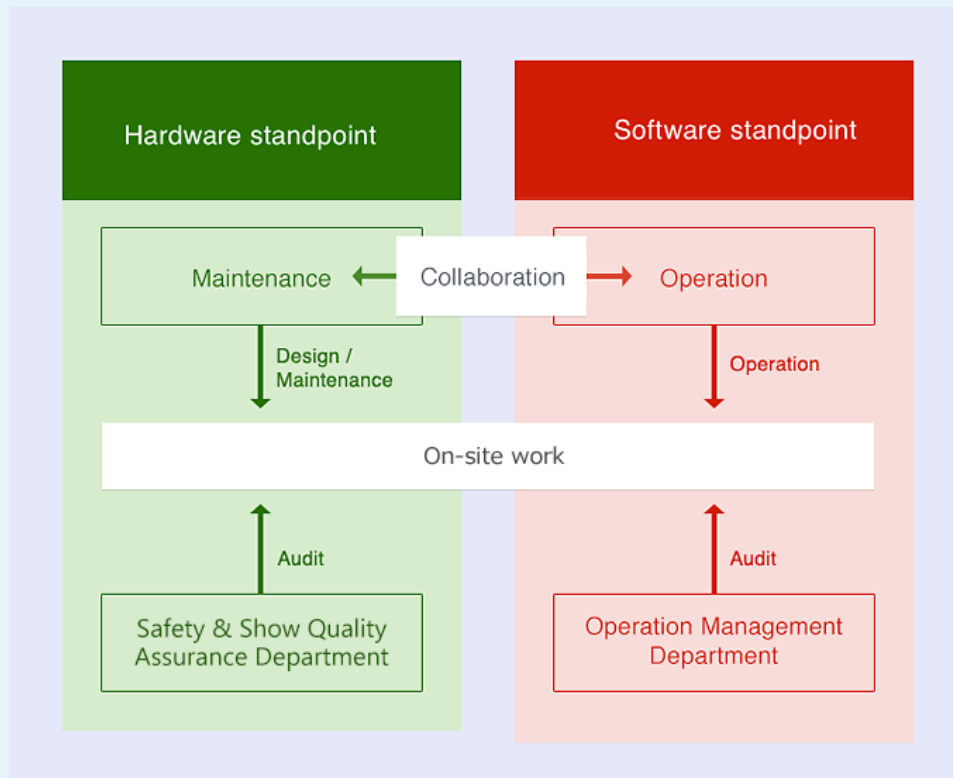

## Management Structures

### The Role of Audits and Communication in Safety Management

#### Tokyo Disney Resort

It is fundamental that both the maintenance and operations departments work and communicate closely together to fulfill their roles with integrity for the safety of our attractions and facilities. In addition, by maintaining close contact with Cast Members, maintenance and operations managers are able to identify small changes and emerging safety risks, while facility managers also ensure on-site safety.

Internal checks are carried out on an ongoing basis by the Safety & Show Quality Assurance Department, which verifies whether facilities maintenance for attractions is being carried out according to the standards, and the Operation Management Department, which confirms that the staff is carrying out operations reliably and in accordance with the manuals.

### Attraction Safety Program

Tokyo Disney Resort

Our Group is committed to the safety of our rides and attractions in terms of both attraction design and maintenance, as well as Guest enjoyment and operational safety.

#### Safety Management of Theme Parks Facilities/Rides/Ride Equipment-Design

All of our attractions are designed by placing the utmost importance on safety. In particular, all roller coaster attractions are equipped with a broad range of safety features, such as ride restraints, and require strict adherence to rules, such as enforced height restrictions.

We have also installed a range of equipment that is designed to prevent Guests from climbing or jumping over park fences such as the fixed guard nets on rails and along the waterfront in some watercraft attractions, and automated station gates in the loading areas of all roller coaster attractions. Moreover, the Soaring: Fantastic Flight is equipped with a center strap to keep children securely in their seats, thereby ensuring that all Guests can enjoy the ride safely.

## Safety Management of Theme Parks' Rides System – Maintenance

All Tokyo Disney Resort facilities are checked by a team of approximately 1,000 maintenance technicians\* who work in shifts to verify and maintain safe conditions. In addition to statutory inspections, we perform daily and routine inspections and maintenance in accordance with our own strict maintenance standards. Furthermore, we annually conduct overhaul maintenance of approximately 600 attraction vehicles at our own factory. After the vehicle is disassembled, various inspections such as non-destructive inspection and parts replacement take place. Once the vehicle is assembled again, it is brought into the attraction and after passing the final cycling test, the inspection and maintenance work is complete. We constantly review these maintenance standards and audit the status of inspections and maintenance work to keep our facilities safe. In addition, some attractions are individually closed at regular intervals to allow our maintenance team to perform thorough non-destructive inspections and maintenance work that cannot be performed during daily inspections.

In the event of an earthquake exceeding a certain magnitude, the Theme Parks' attractions are stopped at locations that enable Guests to safely disembark. Guests are then evacuated to safety through evacuation routes. We commence inspections by following the appropriate standards and checklists corresponding to the magnitude of the earthquake and confirm the safety of the rides and attractions.

\*The technicians who maintain our Tokyo Disney Resorts include Engineering Services Division personnel and the staff of maintenance subsidiaries and partners affiliated with our Group.

### Operational Safety

Cast Members in charge of operations at all attractions ensure the safety of all rides and attractions.

For example, at Soaring: Fantastic Flight, after the Guests have buckled up their seatbelts, Cast Members make sure that they are locked by checking the lamp light above each seat. In addition, Cast Members ask the Guests to pull the yellow tab attached to their seatbelt so that the Guests themselves can check that the seatbelt is locked, along with the Cast Members.

## Safety Training

### Tokyo Disney Resort

We offer a variety of education/training programs to make sure that our attractions are safe and of high quality.

When we temporarily close an attraction to perform inspections and maintenance work, we ask our Cast Members and contractors to attend a training program to learn more about the magic behind the attraction. By enabling them to perform their maintenance work based on the story, we can provide Guests with safety and a quality experience. We also offer a training program for Cast Members and contractors who operate and maintain attraction facilities equipped with the ride motion protection system, which keeps the ride vehicles from moving while inspection or maintenance work is being conducted along the tracks or elsewhere.

New Cast Members are required to learn the standard operating procedures and undertake repeated on-the-job training so that they are able to respond to any situation. They must then go through an assessment period before being authorized to operate attractions independently. In addition, Cast Members also regularly participate in emergency evacuation drills in which the attractions are shut down, which are held in the early hours before opening or after the Theme Parks have closed.

# Examples of Improvements that Have Been Made to Date

## Actions and Performances

### Examples of Improvements Made to Date

#### Tokyo Disney Resort

At the Theme Parks, we continue to look for safety enhancements for the attractions to operate safely. The following are safety measures taken in the past.

#### Measures Taken to Enhance Safety at Haunted Mansion

In order to help Guests get on and off the vehicle more safely at the Haunted Mansion, in addition to the existing footlight, a gray line at the edge of the vehicle footrest was added to improve its visibility in FY 2020.

A line was painted at the edge of the footrest.

#### Measure Taken to Enhance Safety on Mark Twain Riverboat

We enhanced onboard safety of the Mark Twain Riverboat in FY 2019 by increasing the height of the rails around the perimeter and on the stairs of the boat. As the weight and balance of the boat changed when higher rails were adopted, we gave careful consideration to their materials and design, while taking into account the performance of the boat.

Increased the height of the rails on Mark Twain Riverboat

### Measure taken to enhance safety on Monsters, Inc. Ride & Go Seek!

In FY 2018, we changed the seat cushion material, alleviating the physical shock felt when the vehicles move and stop. This enhanced the comfort and overall safety.

The material of the seat cushion was changed.

### Higher backrest measures taken to enhance safety on The Whirlpool

In FY 2018, the height of The Whirlpool backrest was increased to prevent Guests from stretching their arms outside of the ride. We took special consideration in selecting the materials and developing a design that would not block the views of children by the heightened backrest.

Improved backrest design

### Measures Taken to Improve Safety on Castle Carousel

In FY 2017, we extended the length and width of the stirrups and adopted more visible paint colors to enable Guests to more easily get on and off the carousel horses. In FY 2019, the height of the floor surrounding the turntable was raised to align with the floor of the attraction so as to prevent Guests from tripping when getting on and off the attraction.

The length and width of the stirrups were extended and more visible paint colors were adopted.

The floor surrounding the turntable was raised to eliminate height difference.

### Measure Taken to Improve Safety on Buzz Lightyear's Astro Blasters

In FY 2016, we installed an extended railing to enhance Guests' safety in the boarding area of Buzz Lightyear's Astro Blasters. The railing makes it easier for Guests to access the moving belt at the right angle.

### Measure Taken to Improve Safety on the Western River Railroad

In FY 2015, the coach doorways were widened and the platform was raised to align the height of the steps so that Guests can get on and off the ride with greater safety.

2. Safety shall be our highest priority in the development, design, construction, inspection, maintenance and operation of all entertainment shows.
3. The OLC Group shall submit and enforce the safety standards set forth in our safety guidelines with respect to all business clients and partners, and shall strive to enhance the safety of show production and operation.
4. The OLC Group shall provide education and training on safety to all its employees to further its goals in show safety

## | Safety Management System

### Tokyo Disney Resort's

#### Safety Guidelines for Equipment

Our Safety Guidelines set out the safety criteria governing the design, construction, inspection and maintenance work undertaken on the equipment used in parades and shows, and are rigorously enforced. The purpose of these guidelines is so that all our Guests can watch and enjoy our parades and shows in safety and comfort.

The Safety Guidelines are composed of the following two guidelines:

#### Management System for Safety in Manufacture and Inspection

All floats, stages and sets are manufactured in accordance with the Guidelines for Manufacturing and Construction of Show Equipment. In addition to checking the safety of items produced, on the basis of strength calculations, safety is confirmed against a wide range of safety criteria that are designed to identify any risks, including those associated with nighttime float operation and that all structures are safe for both the Guests and the performers.

We have introduced a system for inspection and maintenance, under which maintenance plans (daily, monthly and annual inspections) are tailored to specific program components created internally and in line with our Maintenance Guidelines. The work of the inspections is outsourced to maintenance specialists that have been selected for their competence in this area.

We hire and assign engineers to oversee the manufacture and inspection of structures to ensure that safety is appropriately judged and maintained. We are also working to further enhance our safety monitoring by introducing a system where safety checks are conducted by contractors with extensive experience and expertise in design and structural calculations.

#### Management System for Operational Safety

We have developed a system where Cast Members are stationed evenly along the approximately 800-meter parade route in numbers that are appropriate for the Guest attendance numbers as a precaution against unexpected occurrences such as children running into the path of an oncoming parade and to guide Guests to evacuation routes in the event of an emergency. To avoid any challenges that might arise as the result of large concentrations of Guests in a single area, we have also introduced a lottery system for certain shows.

## Actions and Performances

### Tokyo Disney Resort's

For the Tokyo Disneyland Electrical Parade Dreamlights, we have installed a float safety system that monitors the road ahead of each float during the nighttime event.

## | Show and Parade Safety Training

Cast Members thoroughly observe the [Code of Conduct - The Five Keys-](#), and receive regular training, so that they remain alert to potential risks while at work and are ready to take prompt and appropriate action in the event of an emergency.

First-year employees assigned to entertainment undergo a safety program, where they are offered a chance to experience various situations in order to enhance their safety awareness and sensitivity to potential hazards. Furthermore, through various case studies we aim to empower employees to practice safe behavior and maintain and enhance workplace safety. Additionally, occupational health and safety training programs are also offered for all employees involved in shows to learn the keys to taking care of their physical health and prevent work-related incidents.

### Collaboration with Suppliers

At OLC we implement rigorous quality control in the production process of our merchandise, while giving consideration to the labor conditions and work environment of our suppliers and manufacturing facilities to build cooperative relationships throughout the entire supply chain. With regard to merchandise sold at our Theme Parks, we annually update the documents and manuals required for each development and production processes, including quality inspection standards, production safety manuals, price tag management methods, and details of pre-shipment and pre-delivery inspections, and send them to our suppliers. Furthermore, we offer periodic briefing sessions to help our suppliers better understand the processes and adhere to our Policy on Product Safety and Quality.

### Measures to Ensure Safety in Product Development

#### Tokyo Disney Resort

In developing products, we implement measures to ensure Guests' safety by assuming all kinds of potential risk. For example, we have a set of safety standards in place for children's products to make sure that they can withstand forces such as impacts and biting. In addition, we put all merchandise through dropping, tensile and compression tests as well as chemical examinations to confirm their safety.

Product category	Examples of Company's measures to ensure safety
General merchandise	<ul style="list-style-type: none"><li>• We apply the regulation concerning the use of six phthalate esters (plasticizers) in toys to all merchandise made of plastic.</li><li>• We test products for flammability against our own safety standards, which require the flame spread rate to be 2.5 mm/second or slower (e.g., plush toys).</li></ul>
Clothing for infants	<ul style="list-style-type: none"><li>• While the law requires formaldehyde levels to be 0.05 abs or lower, we set a stricter proprietary standard of 0.03 abs or lower.</li></ul>

1. Every effort shall be made to maintain the safety and security of all food products provided and sold by our Group.
2. We shall comply with all statutory safety regulations as well as the rules, regulations, standards and manuals indicated in our own safety guidelines.
3. Our approach to food safety management shall incorporate the HACCP\* process, and we shall use the PDCA (Plan-Do-Check-Action) cycle to coordinate the audits, inspections and educational activities.
4. We shall work to establish smooth communication within our Group and with suppliers, customers (Guests) and government agencies, etc., as well as share information on problems and initiatives involving food safety within the food chain.
5. All Cast Members that handle foods or drinks shall receive education and training to ensure that they understand and can implement our food safety policies.

\* HACCP is a method that utilizes operation manuals to constantly manage parts of the production (food preparation) process that are important for ensuring sanitation.

## Management Structures

---

### | Safety Management Structure

#### Tokyo Disney Resort

The restaurant facilities at Tokyo Disneyland and Tokyo DisneySea follow the HACCP system, a system that was institutionalized through a partial amendment to Japan's Food Sanitation Act and promotes food safety by focusing on the prevention of safety problems. With regard to some of our facilities, we requested the local health center to issue the HACCP confirmation checklist as part of our efforts to maintain and enhance food hygiene management.

All of our food products are inspected for voluntary standards that have been developed on the basis of Japan's Food Sanitation Act and other applicable laws and regulations. We monitor hygiene levels in our facilities and the health of our employees on a regular basis.

We also request our food suppliers comply with our voluntary standards. Furthermore, we conduct regular evaluations of restaurant facilities, original food products carried at these facilities, as well as the food processing plants we contract to produce the ingredients we use.

### | Company farms

We run our own farms in Hokuto in Yamanashi Prefecture, and Teshikaga in Hokkaido to produce and supply year-round tomatoes, bell peppers and strawberries.

We will keep working to ensure a steady supply of fruits and vegetables by producing them in-house and further enhancing our quality control systems.

### Considerations for Guests with Food Allergies

#### Tokyo Disney Resort

In order to allow Guests with food allergies to enjoy the experience of dining with us, we have restaurants that offer [special dietary menus](#)  including meals that do not contain wheat, buckwheat, eggs, milk or peanuts. Some restaurants also serve allergy-friendly dishes that are free of 28 specific allergy-related ingredients. Tablets are available at major restaurants for Guests to check the list of 28 specific ingredients and other ingredient information.

Also, to allow Guests to check the use of the specific ingredients in dishes on the menus before coming to the Theme Parks, we offer an [“Allergen information search”](#)  page (in Japanese only) on the official Tokyo Disney Resort website.

### Country of origin of food ingredients

#### Tokyo Disney Resort

With regard to ingredients of dishes served at Tokyo Disneyland and Tokyo DisneySea restaurants, the [countries of origin](#)  (in Japanese only) are disclosed in accordance with the country-of-origin labeling guidelines for the foodservice industry compiled by the Ministry of Agriculture, Forestry and Fisheries. This is an example of our efforts to ensure that Guests can enjoy dining with peace of mind.

### Safety Training for Employees

#### Tokyo Disney Resort

To assure the safety and security of all food items offered at restaurant facilities throughout Tokyo Disneyland and Tokyo DisneySea, we hold classes on food safety.

Cast Members engaged in food service undergo basic or advanced courses on food hygiene to learn how to handle foods. A total of over 400 Cast Members annually complete food safety education programs, which are held about 80 times a year.

Additionally, our Cast Members rigorously comply with handwashing, which is a basic requirement for providing Guests with safe and reliable foods.

## Park Safety (Tokyo Disney Resort)

Safety is our top priority throughout all Park operations and in addition to the initiatives detailed in the preceding pages, we take an extensive range of safety measures in security, first-aid and disaster response with the aim of providing our Guests with safe and enjoyable experiences. We have a security system in place outside our Theme Parks, including patrols in the vicinity of our hotels and JR Maihama Station.

We also issue manuals that instruct employees on how to take prompt actions in the event of an earthquake or other emergency. Employees are also provided with rigorous training including emergency drills at each facility.

## Tackling Fire Risks

In the event of a fire, the Central Monitoring Center will request immediate dispatch of firefighting units via its direct hotline to fire departments while our firefighting team will take initial measures to put out any fires. Tokyo Disney Resort is equipped with a fire truck so we may engage in first response firefighting activity when necessary. To be prepared to provide evacuation guidance and extinguish fires to maintain Guests' safety, we regularly train our firefighting team and implement joint fire drills under the leadership of the local fire department/station of Urayasu City.

## Tackling Earthquake and Tsunami Risks

To be prepared for an earthquake occurring in the capital area, a Nankai Trough earthquake, or other large-scale earthquakes that are expected to occur in the future, we have in place the Basic Plan of Earthquake Countermeasures, which describes our plans for supplies and materials as well as first-aid care. Based on the Basic Plan, we have also prepared a response manual indicating the action to be taken by each department. In the event of a large-scale earthquake, the Tokyo Disney Resort Earthquake Countermeasures Headquarters will be set up, with the President of Oriental Land Co., Ltd. as its director, to deal with the situation.

For stranded Guests and employees, we have four days of emergency food supplies in stock, water, aluminum blankets, maps, and liquid baby formula.

With respect to a tsunami, we consider it to be safer to remain at the Theme Parks as both Tokyo Disneyland and Tokyo DisneySea are located roughly five meters above sea level. In the event of a tsunami, our procedure is to contact the Urayasu City authorities to check whether evacuation has been ordered, and take actions accordingly.

## Human Rights

### Policies and Regulations

---

#### | Respect for Human Rights

##### **Human rights policy in line with the UN Guiding Principles on Business and Human Rights**

The OLC Group is promoting effective initiatives to respect human rights in line with the Guiding Principles on Business and Human Rights endorsed by the UN Human Rights Council in 2011 (hereinafter, the “Guiding Principles”).

Measures for human rights due diligence are under discussion based on existing initiatives.

> [OLC Group Human Rights Policy Statement \(Revised in March 2022\)](#)

#### | Formulation Process of the Human Rights Policy Statement

The Human Rights Policy was discussed and formulated by the following process.

## Dialogue with Experts

We held a dialogue meeting with experts to discuss the revised Human Rights Policy Statement draft and human rights due diligence.

Expert: Akiko Sato, Deputy Secretary General / Attorney at Law, Certified Non-profit Organization Human Rights Now

Facilitator: Takeshi Nozawa, CEO, EcoNetworks Co.

### Main opinions:

- As the OLC Group's business exerts a significant impact on society, its approach to respecting human rights is also expected to be highly influential.
- The role of the Human Rights Policy Statement is to enable management to demonstrate its commitment to ensuring a human rights perspective as a fundamental foundation of the business.
- As employees are liable to be victims of human rights violations, corporations should absolutely give priority to respecting the human rights of their employees.
- Human rights due diligence must be implemented to identify the human rights risks that rights-holders are exposed to. Not being able to find any risks is in itself a risk.
- No matter how much human rights due diligence is pursued, human rights risks will always remain. The role of human rights due diligence is to identify risks at an early stage and to prevent serious consequences.
- On implementing human rights due diligence, it is desirable to also consider whether existing initiatives can be expanded.

## Actions and Performances

### Other Efforts to Respect Human Rights

Our Business Guidelines, which set forth standards and guidelines for everyday business operations, include provisions on human rights to dissuade employees from discriminating against or harassing others—during the course of any aspect of business activities or personal life—based on race, nationality, sex, age, religion or mental or physical disability, and from encouraging or tolerating such acts. In addition, it prohibits forced labor and child labor.

Furthermore, when communicating information within and without our Group, employees are encouraged to adopt the standpoint of the recipients of the information in order to closely examine its contents and to give due consideration to avoid the infringement of the recipients' human rights.

The Business Guidelines also advocate the importance of respecting diversity and individuality in the workplace and among coworkers when engaging in business operations in order to create a comfortable workplace environment for all employees. It also prohibits discriminatory treatments and acts of harassment in the workplace.

Content of the Business Guidelines is handed out to all employees based on their employment category and roles through mediums such as booklets and intranet.

# OLC Group Human Rights Policy Statement(Revised in March 2022)

## Core Philosophy

The OLC Group is committed to bringing happiness into the world through experiences found nowhere else. This is expressed in our corporate mission to “create happiness and contentment by offering wonderful dreams and moving experiences created with original, imaginative ideas.” The creative source of this happiness is people. The OLC Group’s business relies on a great number of people who work with and for us. Only by respecting the human rights of all who work alongside us can we continue to deliver on our promise of happy experiences.

Human rights are fundamental to our business. We are committed to respecting the human rights and protecting the dignity of all people our business touches.

## Our associates:

The OLC Group strives to provide inclusive workplaces where the human rights, identities and differences of people from all backgrounds are respected. We do not tolerate harassment or discrimination in any form, including on the grounds of a person’s sex, age, race, nationality, language, culture, religion, disability, sexual orientation, and gender identity. We support every employee so that they can realize their full, unique potential.

## Our supply chain:

The OLC Group is committed to respecting the human rights of all people connected to our supply chain. We require all direct suppliers to prevent human rights violations in their operations, and we strive to ensure that the human rights of all workers and others impacted by our supply chain are respected.

## Our customers:

The OLC Group works to create a safe, respectful and comfortable environment for all guests. We act with safety as our top priority, value diversity and inclusion and seek to spread happiness to our customers and the society.

## Upholding International Principles on Human Rights

The OLC Group supports the International Bill of Human Rights, which consists of the Universal Declaration of Human Rights and the International Covenants on Human Rights. We also support the International Labour Organization’s (ILO) Declaration on Fundamental Principles and Rights at Work, which consist of the freedom of association and the right of collective bargaining, the elimination of all forms of forced or compulsory labor, the effective abolition of child labor, and elimination of discrimination at work.

This human rights policy and our efforts to respect and promote human rights are also based on the UN Guiding Principles on Business and Human Rights, UNICEF’s Children’s Rights and Business Principles, and other international principles and standards.

## Compliance with Applicable Laws

The OLC Group complies with all applicable laws in the countries and regions where we operate our business.

When national or local laws conflict with internationally recognized human rights, we seek ways to respect international human rights.

## Scope of this Policy

This policy applies to all directors and employees of the OLC Group.

In addition, we inform suppliers on the OLC Group Human Rights Policy and engage with them to ensure compliance.

## Human Rights Due Diligence

The OLC Group is developing a human rights due diligence system and is continually engaged in its implementation. We work to identify human rights issues that our business can have a significant impact on, understand the adverse impacts of our business on human rights, prevent and mitigate the impacts identified, and disclose progress and results of efforts to remedy them.

## Remediation

The OLC Group is committed to providing access to remedy in cases where we are found to have caused or contributed to a human rights violation. When our products or services are directly linked to a human rights violation through our business relationships, we engage such business partners to provide remedy.

In addition, we have established grievance mechanisms that can be accessed by anyone whose human rights have been adversely impacted, and we are working to improve their effectiveness.

## Education

The OLC Group is committed to embedding this Human Rights Policy into all relevant policies and procedures and to providing all directors and employees with the education necessary to acquire knowledge and competencies for respecting human rights.

## Stakeholder Dialogue

The OLC Group engages in continuous dialogue and discussion with stakeholders, such as our employees, customers, suppliers and other business partners, to promote respect for human rights.

## Information Disclosure

The OLC Group regularly discloses information on our human rights initiatives through the OLC Group official website.

This policy statement was approved by the OLC Group board of directors on March 25, 2022. The CEO and COO bear responsibility for overseeing human rights issues and implementation of this policy.

## Policies and Regulations

The OLC Group upholds the “OLC Group Procurement Policy” in order to ensure compliance with laws and regulations and to fulfill our sustainable procurement objectives and social responsibility across a wide range of issues including product safety, worker safety, respect for human rights and environmental conservation. This policy was approved by the Board of Directors.

Based on the policy, we employ a fair supplier selection process that gives due consideration to quality, price, technology, delivery lead times and management policy. Once suppliers have been selected, every effort is made to promote fair and proper dealings and to build effective, healthy partnerships by giving our suppliers access to the whistleblower system.

Furthermore, with reference to international standards, we established and operate the “[OLC Group Vendors Code of Conduct](#)” as a code of conduct for our suppliers.

### OLC Group Procurement Policy (Established May 2022)

The OLC Group has consistently delivered “Happiness” to the community under our corporate mission of “creating happiness and contentment by offering wonderful dreams and moving experiences created with original, imaginative ideas.”

In order to provide “Happiness” on an ongoing basis, we abide by our Procurement Policy in an effort to conduct sustainable procurement that can be passed on to future generations in collaboration with stakeholders by being mindful of quality, price, delivery lead times and the impact that our Group has on society.

#### Fair transactions

We do not restrict competition in ways that hinder fair, transparent and free transactions. We select suppliers after comprehensive consideration of their management conditions, the quality, price and delivery lead times of their products and services, and their sustainability efforts, as well as other factors.

#### Compliance with social norms and ethical standards

In accordance with the OLC Group Compliance Code, we comply with all applicable laws and regulations as well as other social norms while maintaining the highest ethical standards.

#### Worker safety and respect for human rights

We comply with and practice the OLC Group Human Rights Policy Statement, and implement measures to respect human rights in partnership with our suppliers.

#### Environmental preservation

We comply with and practice the OLC Group Environmental Policy, and implement environmental measures in partnership with our suppliers.

#### Building effective and healthy partnerships with suppliers

We build relationships of trust with our suppliers and seek to grow together through mutual cooperation.

### ESG Materiality and Target for 2030

Our Group positioned supply chain management as our ESG materiality, and set the following targets. We will consider what kind of system we should adopt to achieve sustainable procurement.

> [ESG Materiality](#)

Key Goal Indicator (KGI)	Quantitative target	Target FY
Ensure that all primary suppliers are informed of and consent to our Procurement Policy and the OLC Group Vendors Code of Conduct	100%	2030
Ensure sustainable raw material procurement for all internally designated items	100%	

## Sustainable Procurement of Raw Materials

In procuring various raw materials used in our Group's business activities, we give due consideration to their social impact, including on human rights and occupational safety, as well as their environmental impact across the supply chain. Regarding some raw materials, we have set particular targets or direction of initiative. The objected raw materials and their initiatives will be reviewed according to their necessity considering environmental, social, and economic situations. We collaborate with our suppliers and contractors to engage in responsible and sustainable raw material procurement throughout the supply chain.

Raw material	Target / direction of initiatives
Paper	Ensure that suppliers are informed of our Guidelines on Paper Procurement and carry out ongoing investigations of major suppliers.  >Guidelines on Paper Procurement
Palm oil	Continue to consider switching to sustainable palm oil.
Conflict minerals	Establish a policy concerning conflict minerals and conduct monitoring including checking with suppliers.
Timber	Establish a policy for procuring sustainable timber and start implementation.
Textiles	Establish a policy for procuring textiles with low environmental impact and consider specific measures.
Seafood	Continue to consider switching to sustainable seafood.

>Targets during the 2024 Mid-term Business Plan

### Voluntary Investigation List (Self-check Sheet)

Moreover, in October 2014 we introduced a "Voluntary Investigation List" – a self-check sheet that enables our suppliers to verify their own compliance with the OLC Group Vendors Code of Conduct and are working to make improvements based on the results, cooperating with suppliers if necessary.

When starting certain new transactions, we require, as an internal condition for approval, that suppliers prove their compliance with the Code of Conduct, that includes categories such as compliance to laws and regulations, product safety, safety of workers and respect for human rights, and environment, by acquiring the Voluntary Investigation List as a risk assessment. To assist suppliers in completing their Voluntary Investigation List, we ask them to read through the Vendors Code of Conduct Guide, which aims to help suppliers and their subcontractors understand the purpose behind each requirement set forth in the Code of Conduct and the concrete measures that should be taken to fulfill the requirements.

Furthermore, in order to keep monitoring suppliers' compliance to each category of the Code of Conduct, we also ask existing suppliers to complete Voluntary Investigation List as a risk assessment every two years, and set the compliance to it as a condition for the continuous transactions.

The OLC Group will continue to adhere to the highest ethical standards in compliance with the law, social norms and behavior set forth in the "The OLC Group Vendors Code of Conduct" and will continue to promote sustainable procurement, while collaborating with our suppliers based on the Voluntary Investigation List to fulfill our social responsibility throughout the entire supply chain.

## Supply-Chain Management for Disney-Brand Products

### Tokyo Disney Resort

The factories commissioned to manufacture products sold at the Theme Parks and Disney-brand products are required to comply with Disney's International Labor Standards program (ILS program), that sets standards to prevent child labor, forced labor, discrimination, and ensuring health and safety of the workers.

For Disney's supply-chain management, please refer to the [Responsible Supply Chain](#). 

## Collaboration with Suppliers that Manufacture Disney-Brand Products

### Tokyo Disney Resort

At Oriental Land Co., Ltd., we make efforts to strengthen collaboration with our suppliers through a variety of measures with the aim of complying with laws and regulations, ensuring product safety, and fulfilling a wide range of social responsibilities throughout the supply chain, including protecting workers' safety, respecting human rights, and protecting the environment.

We request our suppliers to cooperate with on-site audits and pre-shipping inspections by employees and our designated third-party auditors in accordance with the type and category of the products they produce.

Our Disney-branded products are manufactured complying with Disney's International Labor Standards program (ILS program) that sets standards to prevent child labor, forced labor, discrimination, and ensure health and safety of the workers, and have been manufactured in factories assessed as fulfilling the ILS requirements through regular audits. When initiating manufacturing, an OLC audit is implemented to assess the skills and productivity of the manufacturer in order to ensure both safety and quality.

When non-compliance has been pointed out by an ILS program auditor or our Group's auditor, we propose ideas for improvement and to provide other support.

In June 2022, we distributed a briefing video online to convey our quality control policy, the details of the OLC audit, the importance of tests and inspections, and how to address the drastic changes occurring lately in the environment and further strengthen quality control. The briefing video was also aimed at helping our suppliers understand Disney's ILS program—which sets standards to prevent child labor, forced labor, and discrimination, and to ensure the health and safety of workers—and informing them about what precautions to take. A total of 185 suppliers viewed the briefing video. Under the ILS program, we support suppliers by showing examples of improvement ideas for cases of noncompliance involving inappropriate record keeping, nondisclosure of employment status information during audits, use of unauthorized factories, and emergency measures such as safety drills and fire protection measures.

# The OLC Group Vendors Code of Conduct

## The OLC Group Vendors Code of Conduct

This OLC Group Vendors Code of Conduct (the “Code of Conduct”) is aimed at Our Group fulfilling its social responsibility, together with its vendors (“Vendors”), not only in terms of quality assurance but also in the manufacturing process of goods and services which form the transactions between our Group and its Vendors.

Our Group requires all Vendors to conduct their business ethically, to conduct their business in compliance with laws and regulations, social standards and the Code of Conduct and to ensure their subcontractors comply with laws and regulations, social standards and the Code of Conduct. Our Group is committed to complying with the same principles described in the Code of Conduct. In addition, The OLC Group will regularly monitor Vendor compliance with the Code of Conduct. Vendor cooperation with this monitoring process will be appreciated. If any failure of compliance is found as a result, our Group will work with the Vendor towards improving their compliance.

## **7. Environment**

### **7-1 Environmental protection**

To prevent global warming and environmental pollution and to take biodiversity into consideration, etc., efforts shall be made not only to comply with laws and regulations and other standards but also to reduce all environmental loads.

## Guidelines on Paper Procurement (abbreviated)

### I. Purpose

To provide recommendations on how to avoid using paper that may lead to deforestation when producing and procuring paper products, and to promote a shared understanding thereof.

### II. Target

All paper products used in the course of business

### III. Procurement policy

**Paper that is not to be procured shall be determined autonomously, and procurement thereof shall be avoided as far as feasible:**

- Paper using illegally logged wood as raw material (wood from areas where logging is prohibited or of species logging of which is prohibited.)
- Paper using wood from problematic areas (areas where illegal logging takes place often and other areas separately stipulated)

**As a general rule, the following products should be selected:**

- Products of regular members of the Japan Paper Association, and products of companies that declare use of legally harvested timber raw materials
- Recycled paper, FSC-certified paper, paper made from forest thinnings, etc.

#### Method of enforcement

- Check if the raw material used meets our standard on separately defined products that are used in large quantities, when initiating a new contract, contracting with a new supplier, and specification of the paper product has changed.
- Explain the main points of the guidelines to and request compliance from suppliers half or more of whose products or containers/packaging are made of paper.
- Conduct unscheduled inspections of products and lines of products that are deemed important.

# Human Resources Management

## Policies and Regulations

### Our Basic Approach to Human Resources

For the OLC Group, our human resources are the cornerstone of our value creation and one as indispensable as our ongoing investments in facilities that captivate Guests. Guest services provided by highly engaged employees who take pride in our business are the main source of our strength, particularly in our Tokyo Disney Resort business.

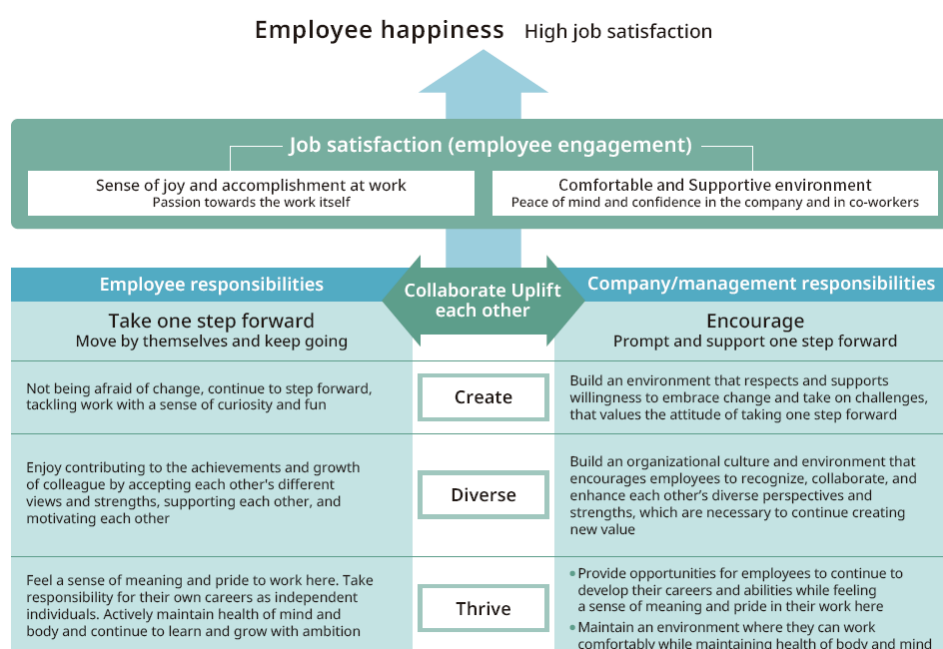

As an employer of around 20,000 people at Tokyo Disney Resort for 35 years, we also have a major responsibility to society.

In recognition of the above, we uphold "Employee happiness" as an area of ESG materiality to achieve Our Goal for 2030.

In an effort to ensure that all Group employees feel satisfied with their work and continue to choose us as their employer, we are implementing measures to enhance their "Job Satisfaction"- a sense of joy and accomplishment, , and for their "Comfortable and Supportive environment" - workplace and internal system.

In OLC Group's Human Resources and Organization for 2030, the goal we uphold for our employees is to "take a step forward" and the goal for the Company and managers is to "give a little push." By creating a relationship between employees and the Company in which they mutually need and elevate each other, we will strive to further enhance our employees' sense of fulfillment.

Through these initiatives, we are ultimately aiming to create Guest happiness, which is expected to enhance the Group's value in a virtuous cycle.

## Human Resources Initiatives under 2024 Medium-Term Plan

In consideration of the impacts of a shrinking labor force due to progressive population aging and the diversification of values around work, we uphold the goal of maximizing our employees' sense of fulfillment at work and transforming our human resources system into one that is sustainable. To achieve this goal, it is imperative to enhance Guest services by employing unconventional ideas, improve our operations, develop personnel and organizations capable of implementing operational reform, and transform our system so that we can keep providing high added value with a workforce of limited size.

To this end, we will make improvements to our organizational management and review the way our Cast Members work to maintain alignment with our new Park environment. In addition, to offer a supportive working environment, we will promote healthier bodies and minds, make our facilities more comfortable, and enhance the digital environment.

[Outline of initiatives]

	Outline
Organizational management	<ul style="list-style-type: none"> <li>• Visualize sense of fulfillment at work</li> <li>• Consider evaluation-based human resources system to foster the type of personnel we need</li> <li>• Develop systems and a corporate culture conducive to autonomous career development, self-driven personal growth and self-management</li> <li>• Help a diverse array of talented individuals demonstrate their potential</li> </ul>
Review the way Cast Members work	<ul style="list-style-type: none"> <li>• Encourage Cast Members to fulfill roles assigned to each employment category</li> <li>• Help enhance a sense of fulfillment at work</li> <li>• Promote recruitment and job retention</li> </ul>
Healthier bodies and minds	Establish a health-conscious environment to help employees take spontaneous actions to maintain healthy bodies and minds so that they can live and work in good health over long periods of time.
Comfortable facilities and efficient digital environment	Develop a comfortable working environment

## Actions and Performances

### Employment Categories and Roles of Employees

OLC employs approximately 20,000 people, each of whom is putting their special skills to use. Around 20% of our workers are corporate employees, contract workers and show performers, with the remaining 80% employed as Theme Park Operation Employees and part-time Cast Members who work at the frontline welcoming Guests.

#### Employment categories and roles of employees

Employment category		Role
Corporate employees	Career-track employees	Employees who work across a wide range of business areas, including actual Theme Park business, Theme Park support, and general administration.
	Theme Park management staff	Operation and stage professionals who work at Theme Parks
	Specialists	Specialists working in specific fields such as technology and food preparation
Theme Park Operation Employees		Employees who specialize in operational tasks at our Theme Parks, the role of directly serving Guests at the forefront
Contract workers		Workers in charge of specialized work in specific departments
Show performers		Entertainers who are selected based on auditions to perform in the Theme Parks' shows and parades
Cast Members		Employees who play a central role in offering hospitality, which directly affects Guests' happiness. Their tasks include providing information at the attractions, cleaning the Park, preparing food, serving customers at restaurant facilities, store sales, inventory management, etc.

## Labor-Management Relations

At OLC, we follow international standards to respect basic labor rights including the collective bargaining rights.

The management and the labor union, Oriental Land Friendship Society (OFS), build mutual understanding and trust through negotiations in order to collaborate and implement initiatives aimed at creating a better workplace environment.

As of March 2022, there were 18,708 union members, accounting for 99.9% of all employees, including contract workers, Cast Members, and show performers, who joined in FY 2017, and Theme Park Operation Employees, who joined in FY 2019.

In FY 2018, labor unions were also formed at each our Group company, along with the Federation of Oriental Land Group Friendship Society (OGFS), a federation comprising the labor unions of our Group.

Under its labor agreement concluded with the labor union, our Group employs the union shop system applicable to all categories of employees.

## Compliance Regarding Labor and Equal Opportunities

At OLC, we prevent the occurrence of child labor by confirming ages on recruitment to comply with the minimum age of ILO (International Labour Standards). We offer equal opportunities to all, and comply with all laws and regulations on payment, ensuring that it exceeds the minimum wage set for the relevant location.

Hiring, placement, evaluation, and remuneration are decided impartially, based on the competence, experience, and accomplishments of each individual.

We strive to prevent overwork and reduce overtime work hours. Specific measures include educating managerial staff to help them appropriately manage employees' work hours and gain awareness of different work styles; ensuring that the Human Resources Division and other organizations regularly review the required number of staff members for each function and introduce tools for enhancing operational efficiency; and monitoring the status of overtime work hours.

There were no cases of labor-related compliance violations in FY 2021.

### Policies and Regulations

#### Basic Approach to Human Resources Development

The OLC Group implements a variety of human resources development programs to create an employee-employer relationship in which both sides need and elevate each other.

To help employees take charge of their own career development and grow in aspirational ways, we provide them with opportunities to develop their career and competencies. In addition, we also provide managerial employees with expanded training programs, thereby promoting the growth of both our people and our organizations.

We also support our employees in building their careers through various initiatives, including an internal system to help part-time Cast Members become corporate employees across different employment categories and providing them with opportunities to think about their careers.

Through the autonomous growth of each and every employee, we aim to increase the value of our business and, furthermore, contribute to Japan's service and tourism industries. In addition, by strengthening our human resources, we aim to execute our long-term business strategy.

#### Corporate Employees

To encourage all employees to seek autonomous personal growth and motivate them to take on new challenges, we clarify the behavior we want to see.

Specifically, this includes a demonstrated willingness to take on new challenges and seek improvement, a strength that is actively fostered among all our personnel; a commitment to getting things done without giving up; and the ability to act as part of a team while fulfilling individual responsibilities.

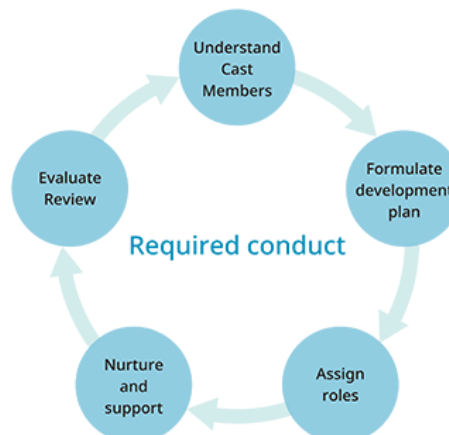

Furthermore, an employee development cycle has been defined. The cycle is comprised of understanding Cast Members, formulating a development plan, assigning roles, nurturing and supporting them, and evaluating as well as reviewing their work. In particular, we support employees' autonomous growth by providing role-specific development programs that help them plan their own career and acquire the skills they need.

#### Desirable Employee Behavior

Don't be bound by conventional ways of thinking and acting; instead continue taking on new challenges and seeking improvement

#### Development cycle

#### Theme Park Operation Employees / Cast Members

We are fostering a corporate culture that encourages our Cast Members to work with vigor.

Specifically, we help them gain a strong sense of self-efficacy, namely, the sense of being useful to our Guests by creating "Happiness" for them, and a sense of personal growth. In our belief that this initiative will lead to further development of our Cast Members, we are working to expand education/training programs and offer a support system that helps them perform at their best in our efforts to improve the workplace environment.

# Management Structures

## Training and Development

At Oriental Land Co., Ltd., we have in place training systems tailored to each job function. Our aim is to fulfill our corporate mission by encouraging all employees to use their own initiative in fulfilling their roles.

Regardless of their role or career path, all new employees undertake training programs to learn about the Disney philosophy and Disney theme parks.

In addition, training programs specific to ranks and grades as well as the Job Challenge System that encourages employees to venture into new fields are offered to help employees build their careers.

## Actions and Performances

### Training Programs for Corporate Employees

We provide our corporate employees with job opportunities and training programs to enable them to become competent individuals, whether acting within or outside the company.

To achieve sustainable growth as a corporation, the autonomous growth of each and every employee is indispensable. To this end, our employees are expected to take charge of their own career development and continue learning with aspiration.

We organize appealing training programs for our employees, and offer opportunities for them to gain new insights and perspectives beyond their jobs and develop their competencies and career.

### Outline of Employee Training Programs and Development Systems

Our training programs are composed of training for junior staff aimed at developing the basic knowledge and skills needed to serve as a fully contributing member of society, and training tailored to the roles and career of each employee. In addition, there are also systems in place to support individuals' career building and personal development. We make sure that employees aspiring to achieve growth can avail themselves of training opportunities at any time.

## Training for junior staff (First and third year of employment)

Training program	Details
Training for new corporate employees	Enables new corporate employees to understand the roles of Co., Ltd.'s corporate employees by learning about our business and engaging in on-the-job training at Theme Parks, and to acquire the basic knowledge required for such roles. Extensive knowledge can be acquired including Disney philosophy and business skills.
Follow-up training	Accelerates the development of employees in their first to third year and provides them with task inventory opportunities.

## Training for All Corporate Employees

Training Program	Details
Role/rank-specific training	Enables trainees to acquire structured knowledge and skills required for their roles and rank.
Self-development courses (optional)	Support employees who are motivated to learn. By taking the courses that provide them with the skills and knowledge they need, individuals can learn and grow by making the best use of their spare time.

## Employee Development Systems

System	Details
Self-assessment System	Under the system, each employee develops their own career plan based on their values, capacities they wish to develop, and goals they wish to fulfill. They also meet with their superior to report the plan. The plan is also shared with Human Resources staff.
Job Challenge System	The system creates opportunities for employees to transfer to a field they regard as "an area where they can contribute by making use of their capacity and skills," on the condition that they are achieving positive outcomes in their current field of business. The aim of the system is to support employees in their effort to take on new tasks as part of their career building.
In-house Recruitment System	The system allows employees to apply for job openings announced within the company. Most of the applicable jobs involve highly professional/specialized tasks or are jobs in new business fields. Employees with suitable capacities and skills are eligible to apply.
Approval for second job	Employees are permitted to have second jobs. By allowing them to opt for growth opportunities beyond the Group, we aim to help them develop their career and competencies on an ongoing basis.

## Training Programs for Theme Park Operation Employees and Cast Members

Cast Members' growth underpins the development of our Theme Parks. In pursuit of "We Create Happiness," the goal upheld by Cast Members, we provide all Cast Members with induction courses for learning about the Disney philosophy and the Cast Members' code of conduct. After they are assigned to their respective divisions, department-specific training programs including on-the-job training are implemented.

In addition, we run a five-step career development program tailored to the jobs and abilities of trainees, a system of appointing trainers responsible for providing guidance to newer employees, and Disney training programs.

Furthermore, we strive to improve the workplace environment by refining the activities we implement to encourage Cast Members to acknowledge and praise one another, as well as receiving feedback. By doing so, we aim to offer them opportunities to be recognized in their daily operations and to receive effective feedback.

### Supporting Career Building

We established OLC Career College in October 2018. Through a variety of seminars, workshops and career consultation services provided at this college, we are offering additional or enhanced support to Cast Members in their career development. Comments made by college attendees include: "I am now more open to other people's opinions," "The program made me feel motivated to grow with my peers," and "What I've learned through my experience as a Cast Member has become a source of strength for me."

\*Enrollment expanded to include corporate employees from April 2021.

# Corporate Culture and Employee Satisfaction

## Actions and Performances

### Corporate Culture that Inspires Creation of New Emotional Experiences

The OLC Group has continued to offer wonderful dreams, moving experiences, delight and contentment, and we have nurtured a corporate culture that inspires and empowers our employees to continue to create new emotional experiences.

A corporate culture where people find happiness in making others happy and where people praise each other regardless of age, gender or title has been fostered and passed on. This is the culmination of our employees' ongoing and unified efforts to provide quality service to our Guests over the past four decades.

As a company-wide activity, we also implement unique initiatives designed to boost the motivation and enthusiasm of our employees.

In addition, initiatives are also undertaken at respective organizations, including uniquely planned employee exchange events and contests aimed at enhancing practical skills.

### Corporate awards

On the anniversary of the foundation of OLC, we present awards for outstanding initiatives selected among those nominated by organizations and committees across the company. Moreover, the Award of Excellence is presented for initiatives that achieved particularly notable results.

#### Corporate awards

Award	Description
Guest Experience Award	Presented in recognition of an outstanding contribution/achievement in enhancing the quality of Guests' experience value
Safety Award	Presented in recognition of an outstanding contribution/achievement in enhancing safety and/or reducing risks
Cost Performance Award	Presented in recognition of efficient use of management resources including people, goods and money
Special Award	Presented in recognition of other special contribution/achievement acknowledged by the Company

### "Dream Up Ideas!"

Aiming to foster a corporate culture that inspires original and imaginative ideas, as described in our corporate philosophy, for 15 years we have been organizing the "I Have an Idea" program, which encourages all employees, regardless of their affiliation or role, to propose ideas for merchandise, food items, Guest services, or ways to improve productivity. In FY 2021, we selected a grand-prize recipient from among the previous year's contestants and conducted an award ceremony. In FY 2022, the contest will be expanded into a proposal system named "Dream Up Ideas!"

## “Spirit of Tokyo Disney Resort” Program

### Tokyo Disney Resort

This program gives Cast Members the opportunity to acknowledge the excellent performance of their colleagues. It involves Cast Members filling out special cards and exchanging them with one another. The program started in 1984 as the Courtesy Campaign and has become an annual event ever since. Cast Members who receive the greatest amount of praise and are deemed most exemplary are presented with the Spirit Award at a special ceremony. Cheered on by their fellow Cast Members, the winners receive a Spirit Award Pin engraved with the image of Walt Disney and Mickey Mouse.

The program promotes individual growth and bonding as Cast as well as allows superiors to recognize daily behavior with each other.

Although the message exchange event was held on a smaller scale to prevent the spread of infection in FY 2020, we held the event on a company-wide basis again in FY 2021. To prevent the spread of infection, we invited employees to vote for the award winners on a portal website and held award ceremonies at each division.

## “Five-Star-Program”

### Tokyo Disney Resort

In this program, when supervisors observe Cast Members providing exemplary service, they hand them a Five-Star Card on the spot. By acknowledging Cast Members on the spot for their specific efforts and reinforcing [Code of Conduct - The Five Keys](#), the program enhances Cast Member motivation. A supervisor gave out the card commented that doing so resulted in their renewed appreciation for how each and every action taken by Cast Members is linked to bringing smiles to the faces of Guests, demonstrating that the program also gives supervisors an opportunity to remain mindful of Guests' and Cast Members' happiness. The program has been carried out since 1995.

### Policies and Regulations

#### Basic Approach to Occupational Health and Safety

In order to achieve Our Goal for 2030, Oriental Land Co., Ltd. upholds “Employee happiness” as our ESG materiality. We place importance on securing the physical and mental health and safety of our employees as part of our efforts to create a fulfilling workplace environment.

#### Policy on Employees’ Health

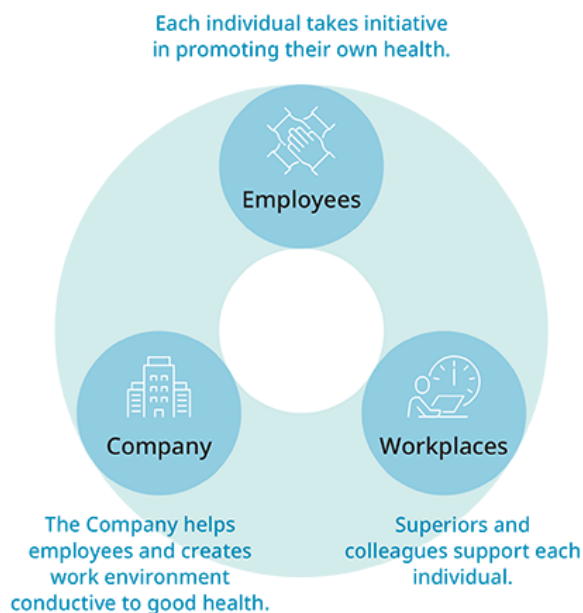

At our Company, employee health is considered to be a part of our human resources assets. Based on this belief, we support each employee’s efforts to promote their own health and create a work environment conducive to such efforts in our hope to further strengthen our systematic foundation for allowing employees to work with peace of mind.

##### (1) Declaration of Health Promotion

We declare that we will promote each individual’s mental and physical health so that we ourselves can feel wonderful dreams, moving experiences, delight and contentment as well as offering them to our Guests.

\*By “we,” we mean Oriental Land Co., Ltd., its employees and workplaces. Each component fulfills its respective roles.

##### (2) Our Roles

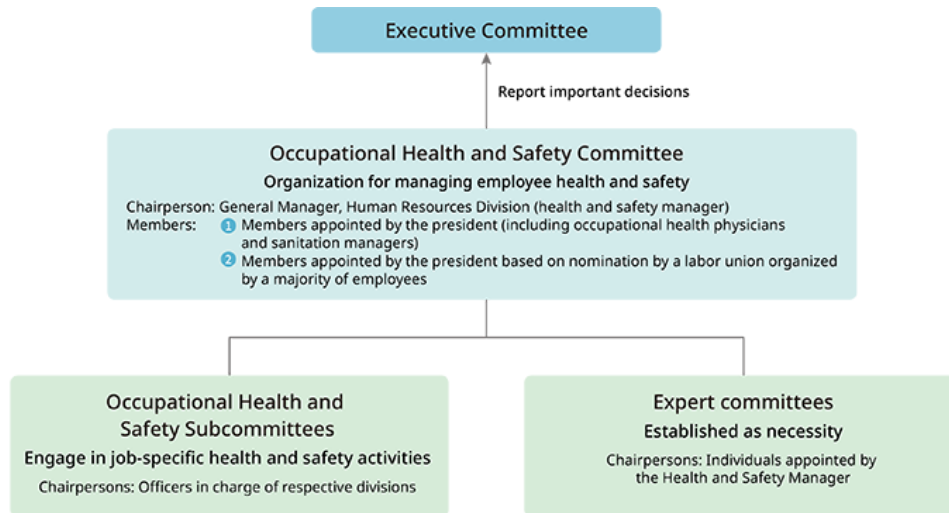

## Management Structures

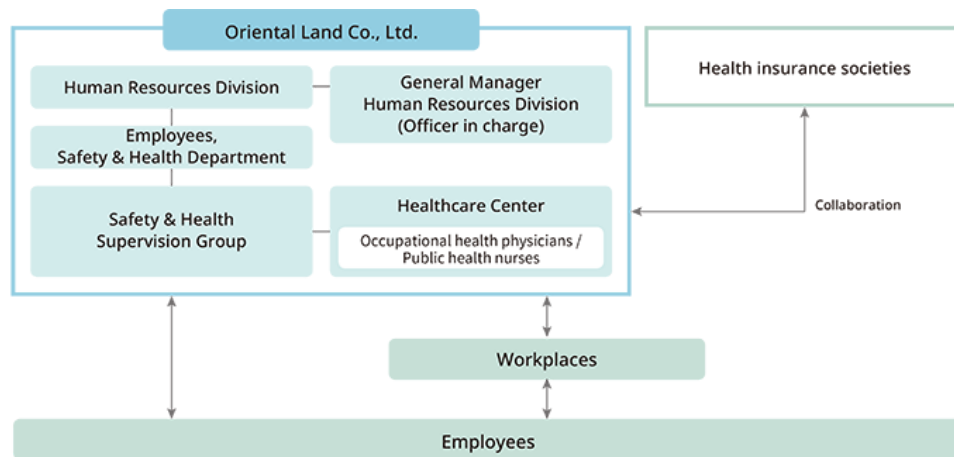

### Structure for Promoting Health and Safety

At our Company, the Occupational Health and Safety Committee is set up as an organization for managing employees' safety. The Committee is chaired by the general manager of the Human Resources Division, who manages all issues concerning health and safety. Furthermore, under the Committee, Occupational Health and Safety Subcommittees and expert committees, which are chaired by officers in charge of respective divisions, engage in job-specific health and safety activities.

The Occupational Health and Safety Committee refers important matters to the Executive Committee for discussion.

### Structure for Promoting Healthier Bodies and Minds

## Actions and Performances

### Labor Safety

We are determined to comply with labor-related laws including the Industrial Safety and Health Act and our internal regulations pertaining to health and safety, and make efforts to eliminate work-related incidents by implementing health and safety activities and safety education programs. In particular, we give top priority to preventing serious work-related accidents by identifying risks at each workplace, monitoring how measures are taken, and making improvements as needed.

## Suppliers' Labor Safety

Our company considers it important for suppliers to give consideration to occupational health and safety. We have therefore set forth the OLC Group Vendors Code of Conduct, and make a point of asking our suppliers to offer an environment where the health and safety of their workers are valued.

## Cast Safety

### Approach to Cast Safety

#### Tokyo Disney Resort

To provide our Guests with happiness, we must focus on the safety of our Cast Members. At the Tokyo Disney Resort, we place great importance on the safety of our Cast Members in addition to Guest safety.

### Cast Safety

To secure safety for Cast Members, we execute a wide range of health and safety activities and safety education programs including regular workplace visits by occupational health physicians and sanitation managers and rigorous enforcement of the Plan-Do-Check-Act (PDCA) cycle through line management.

Efforts that have yielded positive results and lessons learned from work-related incidents are shared across the company to be applied in other organizations. Other measures are also taken to identify and address risks related to equipment or operational procedures that may lead to worker injury.

#### Basic Approach to Create a Workplace for Diverse Employees

The OLC Group focuses on creating a workplace where each and every individual can demonstrate their maximum potential.

When employees with a variety of strengths, traits and values respect and raise each other, they can all work with a sense of fulfillment. We will also aim to engender passion for work and a sense of security and trust toward the company and colleagues.

To help employees lead fulfilling private lives while unleashing their potential at work, we are making efforts to create systems and corporate culture conducive to work-life balance.

### Actions and Performances

#### Initiatives for Work-Life Balance

At OLC, as part of our initiatives to help employees maintain their work-life balance, we have systems that allow a leave of absence to provide childcare, a vacation to care for sick children, a leave of absence or vacation to provide family care, paid leave in half-day increments, and sick leave (also available for family care).

Corporate employees use the flexible working hours system and the remote working system in a way suitable for each job, and avail themselves of paid leave in hourly increments.

For Theme Park Operation Employees who sustain our Theme Park operations, certain systems for corporate employees are offered to them. For Cast Members who also sustain our Theme Park operations, short work shifts are made available to help stay-at-home parents and students balance work and family responsibilities or studies. For Cast Members looking to take on longer shifts, we have in place a smartphone-based system, through which they can apply to fill available shift slots to achieve a more flexible workstyle.

At our company, we strive to prevent overwork and reduce overtime working hours by helping managers gain awareness of labor time management, regularly reviewing the number of staffs required for each position, installing tools for enhancing efficiency, and monitoring the status of overtime working hours.

In FY 2021, the average monthly overtime hours of corporate employees and Theme Park Operation Employees at OLC amounted to 8 hours and 16 minutes.

Furthermore, as benefits for corporate employees and contract workers, our Company has in place an optional asset-building support system. This system offers our corporate employees and contract workers an opportunity to build assets in preparation for a secure post-retirement life after 60 years old by enrolling in a bonus-based defined contribution pension plan.

Having these programs in place alone is not enough if employees are to achieve a healthy work-life balance. We must also nurture a culture that encourages employees to use them. At our Company, we employ various methods so that employees are aware of the childcare and family care support programs that are available to them. We will continue to work toward creating a culture that enables each and every employee to enjoy a better work-life balance.

## Initiatives to Support Employees with childcare

At our company, we adopt a wide range of systems designed to help employees keep working while fulfilling childcare responsibilities, and have in place a consultation service where they can seek for advice.

For expecting and new mothers and their spouses, we offer maternity leave and spousal maternity leave.

We also have introduced various programs for employees returning to work after taking childcare leave: childcare hours, reduced working hours for childcare, exemptions from working extra hours, late-night and holiday shifts, as well as time off to care for sick children. In addition, we offer a comfortable lactation room for breastfeeding female employees.

In support of employees returning to work, we have introduced in FY 2022 a mid-career return program in which shift employees can set shorter working hours. For employees with a working spouse, childcare subsidies are available for hiring baby sitters.

Furthermore, we opened Kids' Village Arbre, a company-financed childcare facility within our premises to support employees and Theme Park Operation Employees returning to work, thereby helping them plan their careers from a medium- and long-term perspective and achieve growth by making maximum use of their time.

## Promoting Active Participation of Women in the Workforce

At our Company, we have been working to create an environment where our employees can focus on their work without worry. Accordingly, our corporate culture makes it possible for numerous female employees to work on an equal footing with men. At present, the difference in the number of years of continuous service between male and female corporate employees is 5. Women account for 54.0% of corporate employees, and 79.0% of Cast Members and other workers (as of the end of March 2022).

We will continue working to make our workplaces better suited for female employees to fulfill their potential, ensuring that women can make use of their skills on an equal footing with their male colleagues.

We are upholding a target to increase the percentage of female managers to over 25% in FY 2025. To this end, we are expanding our education/training programs and organizing programs to support employees engaged in childcare/family care to prevent them from interrupting their careers.

## Supporting Community Events

Our Group supports various events held in Urayasu City. We utilize our internal network (intranet) to provide information about volunteer opportunities for our employees, such as cleaning up the city, or providing assistance at kindergarten or nursery-school field days in Urayasu City. We cherish the opportunity to work together with the people of the community. Also, we donate candles used at our hotels to the Urayasu City welfare center, where they are recycled to make handmade candles that are offered for sale.

### Supporting Local Community amid Pandemic

On March 25, 2020, we donated 14,000 pieces of baked chocolate crunch sold at our Theme Parks to Urayasu City's public elementary and junior high school students to cheer them up during the school closure amid the pandemic. The treats were handed out to each child on the last day of their school term, with a letter attached for their parents, saying, "We sincerely hope that the current situation will be resolved and your school life full of fun and hope will be resumed as soon as possible." In addition, on May 1 and 8, 2020, as part of our efforts to help prevent the spread of the infectious disease, we donated 10,000 units of rainwear to Chiba Prefecture and another 5,000 units to Urayasu City, that can be used as protective clothing for healthcare workers being pointed out of its shortage at the time.

### Cooperation in Urayasu City's Coming-of-Age Day Ceremony

#### Tokyo Disney Resort

OLC has provided a Tokyo Disney Resort facility as the venue for Urayasu City's Coming-of-Age ceremony since 2002.

On January 10, 2022, the Urayasu City Coming-of-Age Day ceremony was held at Tokyo DisneySea's Broadway Music Theatre, where the arrival into adulthood of 1,718 young people was officially recognized. This year's theme was "Debt of Gratitude—2000 new adults envision their future." On behalf of the new adults, a youth representative gave a speech, saying: "While we endeavor to fulfill our dreams, we will always be grateful to our family, friends, and all others for the support we have received. We hope to achieve personal growth so that we can someday pay back what we owe to society."

Support for Those Affected by Torrential Rain in July 2018	In July 2018, we made a monetary donation of 10 million yen plus additional donations from employees to the Japanese Red Cross Society.
Support for Those Affected by Hokkaido Eastern Iburi Earthquake	In September 2018, we made a monetary donation of 5 million yen plus additional donations from employees to the Japanese Red Cross Society.
Support for Those Affected by Typhoon No. 15 in 2019	In September 2019, we made a monetary donation of 30 million yen plus additional donations from employees to Chiba Prefecture.
Support for Those Affected by Typhoon No. 19 in 2019	In October 2019, we made a monetary donation of 10 million yen plus additional donations from employees to the Japanese Red Cross Society.

### Special Set Meals including Donations at Employee Dining Halls (Support for Those Affected by the Kumamoto Earthquakes and Great East Japan Earthquake)

To support people affected by large-scale disasters, our Group has made monetary donations, visited elementary schools, donated stationery (Kumamoto Earthquakes and Great East Japan Earthquake), participated in restoration events (Kumamoto Earthquakes), performed joint concerts with junior/senior high school students, and donated school supplies (Great East Japan Earthquake).

On two days of each month from November 2011 to March 2021, we offered a special set meal called “We Are One” at the seven dining halls for employees located on our premises.

The price of the special set meal included a 30-yen donation, which, along with a matching donation by OLC went toward presenting necessary supplies to elementary schools affected by earthquake disasters. We supported a total of 204 schools in Iwate, Miyagi, Fukushima and Kumamoto Prefectures during the period.

When donating gifts, we recruited volunteer employees in order to engage more employees in our support activities and to present them in person.

Feedback from our employees in FY 2019 included: “I am originally from Iwate Prefecture, but I haven’t been able to engage in volunteer activities in my home prefecture since I started working. This visit has given me the opportunity to see the smiles of children, teachers, and local shop owners, which was uplifting,” and “I received heartwarming words of appreciation and smiles. I felt honored to have been able to deliver gifts to children, the hope of restoration.”

The children said with smiles on their faces, “Thank you for remembering us. We will take on challenges without giving up, whatever difficulties we may face in the future.” A teacher commented, “Thank you for having bought the gifts at local shops. The children and school staff as well as the local community are all delighted.” (FY 2019)

### Basic Approach to Corporate Governance

We will continue working to strengthen corporate governance, based on our understanding of the importance of raising management transparency and fairness, achieving sustainable growth and development and fulfilling our social responsibilities. Specifically, we aim to strengthen corporate governance by reinforcing the internal control system, increasing management transparency and promoting the reinforcement of management oversight functions. By conducting honest management that emphasizes corporate ethics through these measures, we aim to increase our corporate value.

### Corporate Governance Structure

#### Clarifying Oversight Responsibility and Operating Responsibility

Oriental Land Co., Ltd., the company at the heart of the OLC Group, adopts a corporate-officer system that enables the Board of Directors to focus on supervision, thereby bolstering the management's supervisory function and delegating business execution to corporate officers, which leads to expeditious and appropriate decisions.

The Board of Directors is composed of 11 members (of whom, four are from outside the company). The Board of Directors holds regular meetings convened in principle monthly, which all auditors, regular or non-regular attend.

There is also a system in place to make crucial managerial decisions. Assessments pertaining to the management of the entire company are made at the Executive Committee.

#### Strengthening Independence and Objectivity of Board of Directors

A non-statutory Nomination and Remuneration Committee has been established as an advisory body to the Board of Directors. More than half of its members are independent external directors. The goal is to enhance the independence and objectivity of the Board of Directors in terms of its functions related to director nomination, and remuneration. The committee deliberates on the validity of director nominations and remuneration, and then reports to the Board. Decisions on individual remuneration amounts for directors are entrusted to the committee by the Board of Directors.

#### Ensuring Auditing Effectiveness

Our company operates with a Board of Corporate Auditors system. Our company has also introduced a Corporate Officer System to strengthen the management supervisory functions and to accelerate decision making.

In addition, from the viewpoint of incorporating opinions from outside the Company to ensure transparency and fairness in corporate management, Our company has a Board of Directors with 11 members, including four external directors. Our company also has a Board of Corporate Auditors with four corporate auditors, including three external corporate auditors, which incorporates opinions from an objective and independent stance to raise the efficiency of corporate auditors.

Furthermore, as part of the process to enhance the internal control system, starting with a thorough compliance system, Our company has established various committees.

## ● Corporate Governance Structure (As of October 2022)

\*1 The maximum number of directors defined in the Articles of Incorporation is 15.

\*2 Except when the chairman serves concurrently as president.

\*3 The maximum number of corporate auditors defined in the Articles of Incorporation is 6.

[Corporate auditors]

1. Our employs four auditors, three of whom are external auditors.
2. Under this system, two standing auditors are required to attend meetings and present their objective opinions to the Board of Directors, the Executive Committee and other meetings deemed important by corporate auditors.
3. In accordance with our Audit Policy and the Basic Internal Auditing Plan, our auditors conduct briefing sessions with directors and employees, review the contents of key documents, and discuss matters that have been deliberated at important meetings as well as the findings of company audits.
4. We have assigned dedicated staff in the Corporate Auditor Office to provide assistance to corporate auditors. Additionally, internal regulations require that officers provide corporate auditors essential and appropriate information on a timely basis so that audits are effective.

[Internal Auditing Department and Financial Auditors]

1. In order to promote compliance with laws and internal regulations and efficient execution of work duties, we have established the Internal Auditing Department, which is in charge of internal auditing, while being independent of business execution departments and also playing a part in maintaining internal controls.
2. In order to confirm accuracy in our financial statements, our accounts are audited by KPMG AZUSA LLC.

Our corporate auditors, Internal Auditing Department employees and financial auditors meet on a regular basis and establish, as needed, ad hoc communication and reporting so that all parties are connected throughout the auditing process.

## Policies and Regulations

### Thorough Enforcement of the Compliance System

#### The OLC Group Compliance Code

The OLC Group has established the OLC Group Compliance Code, which sets forth rules for executives and employees on corporate ethics and legal compliance.

#### The OLC Group Compliance Code (Established April 2006)

**All our Group executives and employees will adhere to the highest ethical standards in compliance with the law and social norms, and will act upon the following codes.**

1. Make safety the primary concern.
2. Respect human rights and prevent discrimination and harassment.
3. Be fair and transparent in all interactions.
4. Protect all confidential information, including personal data.
5. Take resolute action against anti-social elements.

#### Business Guidelines

Our Group has put together business guidelines for all its directors and employees as part of its commitment to the highest standards of corporate conduct in all of its dealings. Content of the Business Guidelines is handed out to all employees based on their employment category and roles through mediums such as booklets and intranet.

Based on the underlying values of integrity and sincerity, the Business Guidelines clarify the need for each and every employee to make a dedicated effort to put into practice their commitment to compliance in all aspects of their work.

#### Outline of Business Guidelines

- Prioritize health and safety (deadline management, workplace safety/environment/health management, overtime work, etc.)
- Respect human rights (prohibition of engagement in child labor and forced labor, ensuring that publicity activities are in consideration of human rights, prohibition of all kinds of harassment, etc.)
- Ensure fair transactions (fair selection of suppliers, compliance with the Antimonopoly Act and Subcontract Act, prohibition of bribery, etc.)
- Ensure information management (management of personal information, protection of intellectual property, precautions in using social media, etc.)
- Address anti-social elements appropriately (with resolute behavior and actions)

### Compliance Committee

Our Group has established a Compliance Committee chaired by an individual appointed by the President to ensure the legality of all our Group dealings and embed the spirit of compliance in every business function.

Any time our Group becomes aware of a serious incident involving improper executive or employee conduct or a violation of laws, regulations or company policy, this committee will conduct the necessary investigations and report to the chairman of the committee, the President and an auditor.

In addition, all cases where consultation is sought are periodically reported to the Compliance Committee, the President, the Executive Committee and the Board of Directors.

In FY 2021 no serious law violation occurred.

### Whistleblower/Consulter System

We have established a contact point for employees wishing to report any instances of improper conduct including any types of harassment and improper information management within or without our Group.

We also offer such contact points for each employment category and our Group company to make it easier for employees to seek counseling for any potential issues.

Furthermore, we also provide a dedicated contact point for suppliers as a means of identifying, at an early stage, any violation or suspected violation of compliance by an executive or employee of our Group with regard to their relationship with a supplier.

In order to ensure the effectiveness of this whistleblower/consulter system, internal regulations clearly specify their anonymity, and that whistleblowers and consultants shall not receive unfair treatments.

## Actions and Performances

---

### Compliance Seminars

Our Group provides compliance-related training and education on harassment and proper information management, among others, to all employees upon recruitment and renewal of their employment contract. In an effort to encourage our people to constantly enhance their knowledge and awareness, we also implement, at least once a year, compliance programs for employees of all categories in accordance with their respective roles, including seminars and e-learning led by internal and external lecturers, and group discussions.

Moreover, for managerial staff and administrators, we provide practical harassment education based on actual case examples, including engaging them in discussions on preventive measures and hands-on training on dealing with cases that have arisen.

### Questionnaire Survey on Compliance

A questionnaire survey of employees is periodically conducted to monitor the status of compliance at fixed points in time as well as to identify any violations.

# Risk Management and Information Security

## Policies, Regulations and Management Structures

### Risk Management Systems

The OLC Group works to prevent and respond to a wide range of business risks in accordance with the OLC Group Risk Management Guidelines.

We have installed a Risk Management Committee to promote effective risk management as standard practice. We have periodically identified and assessed our risks, categorizing them into strategic risks\*1 and operational risks\*2, the former overseen and managed by the Corporate Strategy Planning Department and the latter by the Risk Management Committee.

\*1 Strategic risks: Risks that exert a material impact on the sustainability of business

\*2 Operational risks: Risks that exert a material impact on the execution of business

The Corporation Strategy Planning Department and the Risk Management Committee respectively report their risk management status to the Executive Committee and the Board of Directors to confirm the effectiveness of our risk management.

The Emergency Control Center (ECC) is set up to determine how to address an emergency situation as it arises. All OLC Group companies are mandated to swiftly report any identified situations that need to be controlled urgently.

To address the COVID-19 pandemic, we established the Tokyo Disney Resort Infectious Disease Response Coordination Division, with the President of Oriental Land Co., Ltd. as its director. The division makes decisions on important matters concerning the operation of Tokyo Disney Resort, such as limiting attendance at both Theme Parks and reviewing their operating hours.

#### Specific Risks Handled by the ECC

Earthquakes, fires, typhoons, snow, lightning, power outages, accidents, food poisoning, infectious diseases, and terrorism, among other risks

### Business Continuity Plan (BCP) Initiatives

Our Group has set up the Emergency Control Center (ECC) as the organization that supervises response in an emergency such as an earthquake, fire or typhoon to minimize damage to people, and property, enabling the swift resumption of operations. Since the Great East Japan Earthquake in March 2011, we have worked to ensure that operations would be able to continue if a large-scale disaster strikes and are currently considering further initiatives related to our Business Continuity Plan (BCP).

In February 2019, we shifted to a method of financing that sets a loan drawdown of between ¥5 billion and ¥150 billion, with the amount to be determined by our Group if an earthquake materializes.

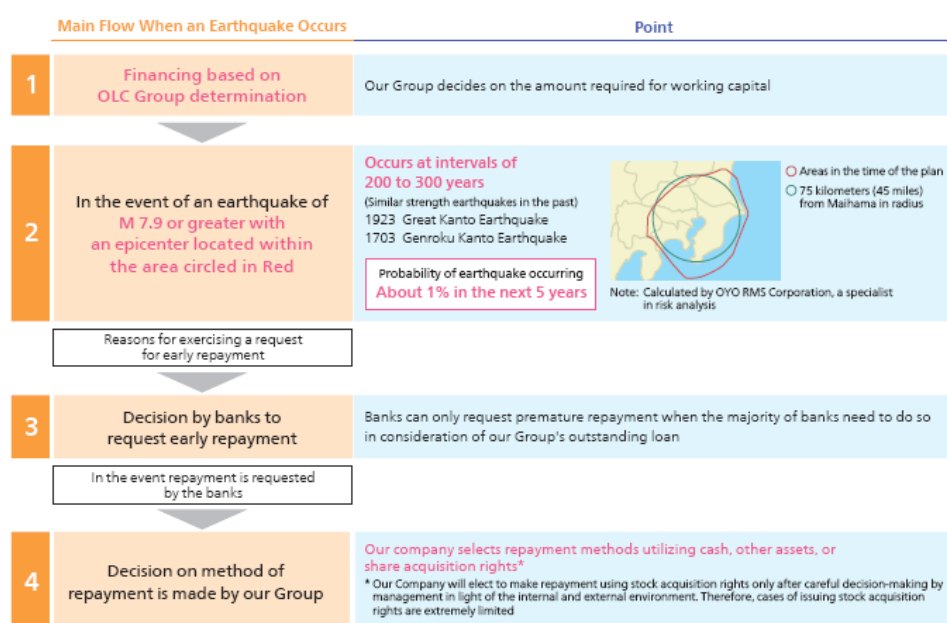

Following the Great Hanshin-Awaji Earthquake in January 1995, we introduced an Earthquake Risk Countermeasure Financing Type Term Loan with the aim of securing liquidity on hand to continue business. This financial preparedness played a part in enabling us to continue business and achieve a rapid recovery in performance when the Great East Japan Earthquake struck. We also review the content of our finances in alignment with our management strategy and the business environment. In addition to being able to increase the financing amount, the new plan allows us to minimize costs by not having to execute the financing until the capital is needed. If an earthquake measuring M7.9 or greater occurs, although the banks can decide whether to request early repayment, our Group can choose to make the loan repayment with cash or other assets, which means the exercise of stock acquisition rights will be extremely limited.

Period	The drawdown period is set at five years from March 13, 2019 The maturity date may be extended to March 2079* * Early repayment in cash may be made on or after March 13, 2024, as determined by our Group
Financing amount	Up to ¥150 billion Procure funds for working capital as determined by our Group when earthquake risk materializes
Commitment fee	0.20% of the ¥150 billion loan facility

Ability to hedge risks with sufficient funding at a low cost

### Earthquake Risk Countermeasure Financing Type Term Loan with a Commitment Period

## Information Security Management Systems

Our Group Basic Policy on Information Security lays out the basic policy and procedure for information management. Specific guidelines for action are set forth in the OLC Group Information Security Policy, and we are developing an information security management system that conforms to this policy. Information management is controlled by the Information Security Management Committee, a sub-committee under the Risk Management Committee. Chaired by the officer in charge of the General Affairs Department, the sub-committee works to raise the level of information security management within our group by monitoring compliance with the OLC Group Information Security Policy and developing plans for employee training and awareness programs. In January 2013, we established the OLC Group Guidelines on Social Media, which set forth rules on management and communication of information through social media. These guidelines serve to enhance our Group's information security including in the social media channels.

## The OLC Group Basic Policy on Information Security (Established March 2005)

1. The OLC Group shall ensure the proper management of all information related to its business operations ("Information Assets" hereinafter), by identifying its owner, its value as an information asset, the level of confidentiality, and rights of access.
2. The OLC Group has established an information security policy ("Policy" hereinafter), setting forth specific procedures to be followed by OLC Group companies and specific actions to be taken by executives and employees in the management of information.
3. The OLC Group, its executives and employees, shall abide by applicable laws governing the management and handling of Information Assets.
4. The OLC Group shall take appropriate technical security measures when processing or holding its Information Assets in an information system and/or network.
5. The OLC Group shall offer scheduled training and education to its executives and employees to familiarize them with information security management policy and procedures.
6. The OLC Group shall review the documents and controls adopted for the Policy and other basic policies etc., and shall monitor compliance with these policies and procedures on a continuous basis.

Our Group ensures that customers' and Guests' personal information is protected. The handling of personal information is periodically checked by the departments in charge, as well as audited by other departments.

### Our Basic Position on Information Disclosure

The OLC Group actively disseminates information to all its stakeholders. We observe laws and regulations pertaining to information disclosure, including the Financial Instruments and Exchange Act, etc., as well as the Tokyo Stock Exchange's rules on the timely disclosure of information. In addition, we disclose information deemed essential to understanding and assessing the business activities of our Group in a fair, timely and appropriate manner through various means such as news releases, website updates and briefing meetings.

Our goal in disclosing corporate information is to enhance management transparency, to build bonds of mutual understanding and trust with our stakeholders and in doing so create dialogue in management a stance that is central to our [business philosophy](#). The opinions and assessments put forward by our stakeholders are reported to the management team on a regular basis so that they may be reflected in decisions made by our Group.

### Disclosure of Negative Information

Our Group is deeply committed to compliance, safety and quality assurance. We promptly disclose information via news release, etc., if any incidents occur, and will continue to disclose information in a timely and appropriate manner, even where such information is detrimental to our Group.

### OLC's IR Activities

#### Investor Relations (IR) Activities of OLC, Conducting Active Information Disclosure and Transmitting Feedback throughout the Company

Top management, supervising officers, corporate officers, and directors are supported by a specialized IR staff consisting of 8 members (As of October 1, 2022). This staff continuously strives to improve the transparency and speed of information disclosure, and also works to disclose materials, including those for quarterly financial results meetings, in an easy-to-understand manner.

OLC values opportunities for management to communicate directly with shareholders. The Company holds discussion forums with its shareholders and other investors, and participates in conferences throughout Japan and overseas that are organized by securities companies. Opinions, suggestions, and evaluations concerning our financial results and ESG initiatives received from our shareholders are not only reported to management, but also sorted for regular feedback to our employees so that we can work to improve our management and business activities.

# Stakeholder Engagement

## Our Approach to Stakeholder Engagement

---

At the OLC Group, we believe in the importance of direct dialogue with our customers, employees, children, shareholders and investors, corporate sponsors, vendor and suppliers, licensors and partners, NPO・NGO・experts, local communities and local governments, etc. and put this belief into practice in the course of our daily work. We ensure appropriate and open information disclosure to stakeholders and place value on interactive communication with them to evolve our business activities and engage in activities that contribute to achieving a sustainable society.

> [Stakeholder Engagement \[KGIs for 2030\]](#)

## Purpose of Stakeholder Engagement\*

---

We aim to obtain opinions from stakeholders through interactive communication, and report the summarized feedback to the top management team so that it can be reflected in our management.

\* Stakeholder engagement: The process of being actively involved with one or more stakeholders through dialogue or other means, with the aim of achieving a mutually acceptable outcome, in the course of a corporation's integration of its social responsibility into day-to-day practice. (Source: Charter of Corporate Behavior & Implementation Guidance by KEIDANREN)

## Progress of Discussion at Subcommittee on Stakeholder Engagement

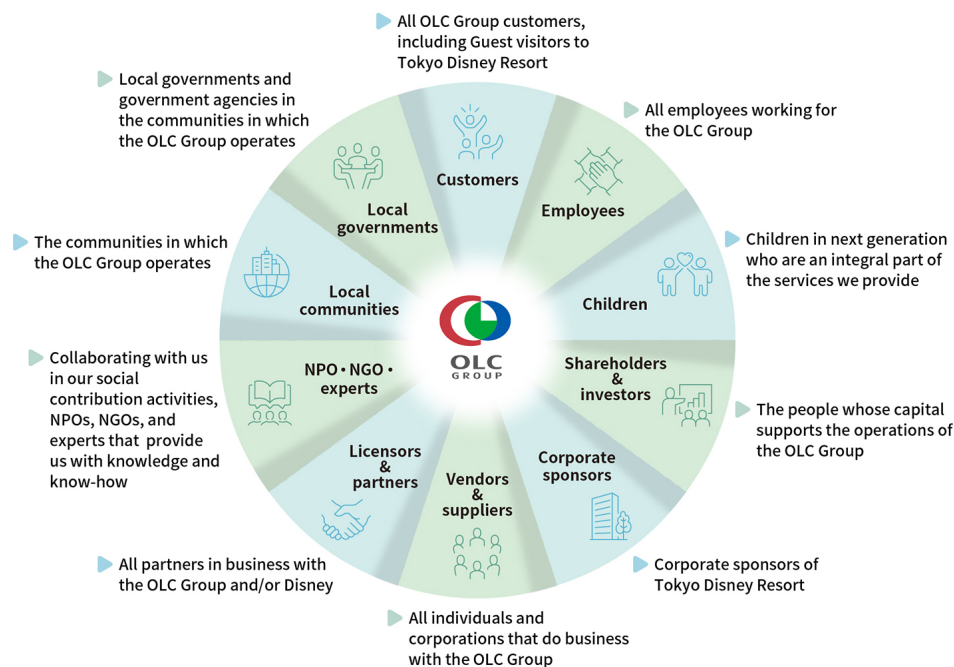

---

Established in July 2021 as an advisory body to the Executive Committee, the Corporate Conduct Committee discusses diversity and inclusion, supply chain management, and stakeholder engagement across our Group, under the responsibility of the Director of the Corporate Strategy Planning Division (Executive Director and Executive Vice President Officer), who serves as the Chairperson.

Reporting to the Corporate Conduct Committee, the Subcommittee on Stakeholder Engagement meets regularly. At these meetings, as a way of clarifying our external stakeholder engagement, we identify and categorize important stakeholders—based on the degree of their impact and/or dependence on the Company—whose opinions should be incorporated into our management. The subcommittee also discusses the potential reputational risks resulting from insufficient stakeholder engagement as well as how any lack of engagement may affect management decisions, and examines measures to further strengthen engagement.

Divisions and business sites that are closely aligned with the respective types of stakeholders head up interactive communications with them, serving as contact points to enhance engagement.

The outcomes of engagement are shared with related divisions as well as the [Sustainability Promotion Committee](#), Corporate Conduct Committee, Subcommittee on Stakeholder Engagement, and other committees as necessary to discuss improvement measures. In addition, we try to disclose as much information as possible on our website and in the form of sustainability reports and other materials in order to implement a Plan-Do-Check-Act (PDCA) cycle.

## Examples of Communication with Major Stakeholders

### [Communication with Customers]

Feedback from our customers is valuable to us. We share their comments throughout the OLC Group for analysis so that we can develop and improve our products and services with the aim of offering greater satisfaction to customers.

(Guest services at Tokyo Disney Resort)

- We offer a variety of contact points and services (via telephone, chat, email, postal mail, and websites) to widely invite feedback from diverse Guests including those from overseas and people with a hearing impairment.
- Feedback from Guest is diverse, ranging from comments on Cast Members' customer service to Park rules and procedures, facilities and the overall environment, and products sold or offered. Their views are consolidated by the CS Enhancement Department, the organization in charge, and shared internally through our intranet, daily meetings, posters, handouts, and other means.
- Feedback related to multiple divisions is discussed at meetings of the CS Enhancement Committee, where relevant divisions convene to find ways to make improvements and incorporate the content of comments into our business activities.
